

The Iraq War and its impact on average Iraqis

Law and order had simply broken down. The police ceased to exist and there was no border control, so drugs, oil and other goods were smuggled out of the country.

Suicide Bomb attacks- In 2006 there was an average of 16 civilian deaths per day just from suicide bomb attacks. Suicide bombers would join up with other men wanting to join the new Iraq army or police force and then detonate their bomb.

Crime increased, Insurgents kidnapped people and ransomed them. This became very common. Many of the people who joined the police were actually involved in crime themselves.

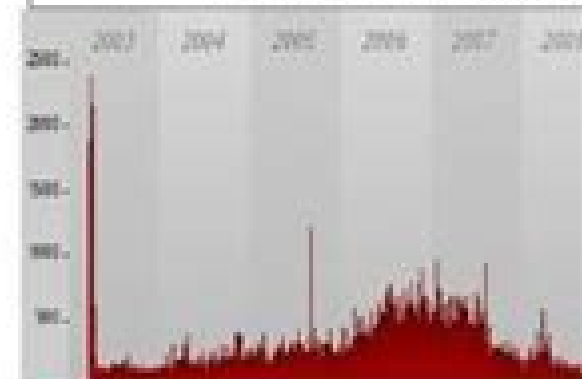

Educated Iraqis were targeted by the insurgents to be kidnapped or killed. This is because the new government would rely on their skills to run the country. This led to many educated and highly qualified people fleeing the country.

Refugees: The UN refugee Agency estimated that 5 million Iraqis became refugees because of the invasion - either leaving their homes (2.6 million) or going abroad (2.5 million went to Syria).

Unemployment and lack of resources- There were severe hardships to face for those living in Iraq. Electricity and water supplies stopped. Unemployment was between 30-40% depending upon where you lived.

The Iraqi civilian death toll

TASK: Use your timeline at the front of your study per year to find out why the death toll was so high.

2) Then you can write a summary on when you think it is. You should be able to find a difference between time troubles after the war.
