Joshua Mqabuko Nkomo of Zimbabwe Sabelo J. Ndlovu-Gatsheni,2017-08-17 This book is a pioneering study of Joshua Mqabuko Nkomo a Zimbabwean nationalist whose crucial role in the country s anti colonial struggle has largely gone unrecognized These essays trace his early influence on Zimbabwean nationalism in the late 1950s and his leadership in the armed liberation movement and postcolonial national building processes as well as his denigration by the winners of the 1980 elections Mugabe s Zimbabwe African National Union Patriotic Front The Nkomo that emerges is complex and contested the embodiment of Zimbabwe s tortured trajectory from colony to independent postcolonial state This is an essential corrective to the standard history of twentieth century Zimbabwe and an invaluable resource for scholars of African nationalist liberation movements and nation building

Conservation Areas Jens Andersson, Michel de Garine-Wichatitsky, David Cumming, Vupenyu Dzingirai, Ken Giller, 2017-07-14

The introduction of transfrontier conservation areas TFCAs in southern Africa was based on an enchanting promise simultaneously contributing to global biodiversity conservation initiatives regional peace and integration and the sustainable socio economic development of rural communities Cross border collaboration and eco tourism became seen as the vehicles of this promise which would enhance regional peace and stability along the way However as these highly political projects take shape conservation and development policymaking progressively shifts from the national to regional and global arenas and the peoples most affected by TFCA formation tend to disappear from view This book focuses on the forgotten people displaced by or living on the edge of protected wildlife areas It moves beyond the grand enchanting promise of conservation and development across frontiers and unfounded notions of TFCAs as integrated social ecological systems Peoples dependency on natural resources the specific combination of crop cultivation livestock keeping and natural resource harvesting activities varies enormously along the conservation frontier as does their reliance on resources on the other side of the conservation boundary Hence the studies in this book move from the dream of eco tourism fuelled development supporting nature conservation and people towards the local realities facing marginalized people living adjacent to protected areas in environments often poorly suited to agriculture **Termites of the Gods** Siyakha Mguni, 2015-03-01 Siyakha
