The Great Curse R. Albert Berry, 2024 Land is the key input for economies in the earliest stages of development when seventy five percent to ninety percent of the labor force is engaged in agriculture Concentration of land ownership has been a common and usually quite damaging feature of most societies throughout history as both the cause and the result of access to power Highly unequal control of land typically implies severe inequality of income and welfare as well Landlessness has been at the root of many of the world s most serious and persistent problems including severe exploitation and the deprivation of political rights and basic human needs Historically the motivation for many revolutions has been access to land This volume reviews the land reform experiences of multiple countries during the twentieth century The experiences I covered illustrate the widespread need for reform the great difficulties facing major changes and the extreme cost of failure in delicate political moments Looking ahead the biggest challenge will be to avoid the injustices and inequality that have accompanied land concentration in the past

Democratic Decay and Authoritarian Resurgence Natasha Lindstaedt, 2021-05-28 Why do democracies fall apart and what can be done about it This book introduces students to the concept and causes of democratic decay in the modern world Illustrating the integral link between public commitment to democratic norms and the maintenance of healthy democracies it examines the key factors in decaying democracies including Economic inequality Corruption Populist and authoritarian discourse Declining belief in political institutions and processes Drawing on real world developments and including international case studies the book outlines the extent to which there is a democratic recession in contemporary politics and shows how transnational networks and technology are impacting on this development
