World War II The work of the great Yiddish and Hebrew writer Isaac Leib Peretz 1852 1915 represents the center of the book though it does not concentrate solely on Peretz s work but rather discusses the oeuvre of other unique authors in the cultural space of Jews in Central and Eastern Europe generally and in Poland particularly The book looks at this issue from three aspects namely the literal cultural and historical and also examines the dialogue of Polish Jewish literature with other languages and cultures

Short Stories, Knowledge and the Supernatural Amândio Reis,2022-07-11 This book proposes a comparative approach to the supernatural short stories of Machado de Assis Henry James and Guy de Maupassant It offers an alternative to predominantly novel centric and Anglo centric perspectives on literary pre modernism by investigating a transnational and multilingual connection between genre theme and theory i e between the modern short story the supernatural and the problem of knowledge Incorporating a close analysis of the literary texts into a discussion of their historical context the book argues that Machado James and Maupassant explore and reinvent the supernatural short story as a metafictional genre This modernized and innovative form allows them to challenge the dichotomies and conventions of realist and supernatural fiction inviting their past and present readers to question common assumptions on reality and literary representation

The Routledge Handbook on the Influence of Built Environments on Diverse Childhoods Kate Bishop,Katina Dimoulis,2024-07-01 Children and young people are often discussed as if they are homogenous groups The reality is of course very different with an enormous variation within each of these groups and in any domain of experience pertaining to childhood or adolescence Driven by personal sociocultural geographic or economic circumstances many children and young people worldwide are experiencing a totally different reality to those who fit with more mainstream patterns of childhood This has substantial implications for their

sociophysical environmental experience and our understanding of their physical environmental needs The aim of this book is to draw attention to these alternate realities for a number of these groups of children and young people highlighting the unique and different considerations associated with their particular circumstances in each instance and identifying the repercussions for their physical environmental needs Ultimately this book creates an evidence based discussion which can be used by designers planners and policy makers and those delivering services and programs to children and young people as a basis to make informed decisions on how to work with the groups of children and young people in our book for better environmental provision *International Anthologies of Literature in Translation* Harald Kittel,1995-01-01 **Stephen**
