performance practice that emerged in the early decades of the twentieth century among Zulu migrant workers maskanda is strongly associated with young Zulu men's experiences of repression and dislocation during imperial and more particularly apartheid rule. Working closely with translated song lyrics and musical notation and applying musical and socio-political analysis to this music and its cultural context, Olsen argues that maskanda offers insight into how the post-apartheid ideal of social transformation is experienced by those who were marginalized for most of the twentieth century. Drawing on a decade of research, Olsen strives to demystify the Zulu part of contemporary experience in South Africa and to reveal some of the complexities of the social, economic and political landscape of contemporary South Africa. International Folk Music Council, 1966 Music, Culture, and the Politics of Health Austin C. Okigbo, 2016-08-03 This book is an ethnographic study of a HIV/AIDS choir who use music to articulate their individual and collective experiences of the disease. The study interrogates as to understand the bigger picture of HIV/AIDS using the approach of microanalysis of music event. It places the choir and the cultural and political issues addressed in their music in the broader context of South Africa's public health and political history and the global culture and politics of AIDS. Song Walking Angela Impey, 2018-11-28 Song Walking explores the politics of land, its position in memories and its foundation in changing land use practices in western Maputaland, a borderland region situated at the juncture of South Africa, Mozambique and Swaziland. Angela Impey investigates contrasting accounts of this little-known geopolitical triangle, offsetting textual histories with the memories of a group of elderly women whose songs and everyday practices narrativize a century of borderland dynamics. Drawing evidence from women's walking songs, amaculo manihamba, once performed while traversing vast distances to the accompaniment of the European mouth harp, isitweletwele, she uncovers the manifold impacts of internationally driven transboundary environmental conservation on land, livelihoods and local senses of place. This book links ethnomusicological research to larger themes of international development, environmental conservation, gender and local economic access to resources. By demonstrating that development processes are essentially cultural processes and revealing how music fits within this frame, Song Walking testifies to the affective, spatial and economic dimensions of place while contributing to a more inclusive and culturally apposite alignment between land and environmental policies and local needs and practices.

African Stars Veit Erlmann,1991-09-24 In recent years black South African music and dance have become ever more popular in the West where they are now widely celebrated as expressions of opposition to discrimination and repression Less well known is the rich history of these arts which were shaped by several generations of black artists and performers whose struggles visions and aspirations did not differ fundamentally from those of their present day counterparts In five detailed case studies Veit Erlmann digs deep to expose the roots of the most important of these performance traditions He relates the early history of isicathamiya the a cappella vocal style made famous by Ladysmith Black Mambazo In two chapters on Durban between the World Wars he charts the evolution of Zulu music and dance studying in depth the transformation of ingoma a dance form popular among migrant workers since the 1930s He goes on to record the colorful life and influential work of Reuben T Caluza South Africa s first black ragtime composer And Erlmann s reconstruction of the 1890s concert tours of an Afro American vocal group Orpheus M McAdoo and the Virginia Jubilee Singers documents the earliest link between the African and American performance traditions Numerous eyewitness reports musicians personal testimonies and song texts enrich Erlmann s narratives and demonstrate that black performance evolved in response to the growing economic and racial segmentation of South African society Early ragtime ingoma and isicathamiya enabled the black urban population to comment on their precarious social position and to symbolically construct a secure space within a rapidly changing political world Today South African workers artists and youth continue to build upon this performance tradition in their struggle for freedom and democracy The early performers portrayed by Erlmann were guiding lights African stars by which the present and future course of South Africa is being determined

Music in the Mix Muff Andersson,1981 [Still Beating the Drum](#),2005-01-01 Lewis Nkosi is one of South Africa s foremost writers and critics and one of the few survivors of the exile generation dating from the Drum era Up until now however no full length study has been done on his work This is a gap in South African literary history and criticism that this book is intended to fill Besides his well known earlier works Nkosi is still very much an active writer as the publication in 2002 of his novel *Underground People* shows with his latest novel due out in 2005 The timing of *Still Beating the Drum* a book which intends to highlight and evaluate his extensive and varied oeuvre is thus appropriate Given Lewis Nkosi s life trajectory this volume will appeal to readers interested in South African and African literature both in South Africa and abroad Intended as a important critical resource on Lewis Nkosi the book is divided into three parts Part One collects papers from scholars around the world currently working on Nkosi s work in various genres Part Two reprints key articles from different moments in Nkosi s critical writing together with hitherto unpublished recent

interviews with Nkosi and Part Three provides the reader with a timeline and extensive bibliography for Lewis Nkosi both invaluable resources for scholars working on Nkosi given the scattered nature of much of his more ephemeral writings in the past Lewis Nkosi is an important figure in South African literature whose voice has been heard far and wide this book aims to collect for critical consideration some of the echoes and reverberations his voice has generated
