Choreographing in Color J. Lorenzo Perillo,2020-08-24 In *Choreographing in Color* J Lorenzo Perillo investigates the development of Filipino popular dance and performance since the late 20th century Drawing from nearly two decades of ethnography choreographic analysis and community engagement with artists choreographers and organizers Perillo shifts attention away from the predominant Philippine neoliberal and U S imperialist emphasis on Filipinos as superb mimics heroic migrants model minorities subservient wives and natural dancers and instead asks what does it mean for Filipinos to navigate the violent forces of empire and neoliberalism with street dance and Hip Hop Employing critical race feminist and performance studies Perillo analyzes the conditions of possibility that gave rise to Filipino dance phenomena across viral migrant theatrical competitive and diplomatic performance in the Philippines and diaspora Advocating for serious engagements with the dancing body Perillo rethinks a staple of Hip Hop s regulation the euphemism as a mode of social critique for understanding how folks have engaged with both racial histories of colonialism and gendered labor migration Figures of euphemism the zombie hero robot and judge constitute a way of seeing Filipino Hip Hop as contiguous with a multi racial repertoire of imperial crossing thus uncovering the ways Black dance intersects Filipino racialization and reframing the ongoing contested underdog relationship between Filipinos and U S global power *Choreographing in Color* therefore reveals how the Filipino dancing body has come to be paradoxically both globally recognized and indiscernible

Unfinished Business Judith Hamera,2017 *Unfinished Business* argues that U S deindustrialization cannot be separated from race specifically from choreographed movements of African Americans that represent or resist normative or aberrant relationships to work and capital in transitional times *Cinema's Military Industrial Complex* Haidee Wasson, Lee Grieveson,2018-01-23 The vast and vastly influential American military machine has been aided and abetted by cinema since the earliest days of the medium The US military realized very quickly that film could be used in myriad ways training testing surveying and mapping surveillance medical and psychological management of soldiers and of course propaganda Bringing together a collection of new essays based on archival research Wasson and Grieveson seek to cover the complex history of

how the military deployed cinema for varied purposes across the the long twentieth century from the incipient wars of US imperialism in the late nineteenth century to the ongoing War on Terror This engagement includes cinema created and used by and for the military itself such as training films the codevelopment of technologies chemical mechanical and digital and the use of film and related mass media as a key aspect of American soft power at home and around the world A rich and timely set of essays this volume will become a go to for scholars interested in all aspects of how the military creates and uses moving image media

The Anarchy of Nazi Memorabilia Michael Hughes, 2022-02-08 Out of the numerous books and articles on the Third Reich few address its material culture and fewer still discuss the phenomenon of Nazi memorabilia This is all the more surprising given that Nazi symbols so central to sustaining Hitler's movement continue to live long after the collapse of his 12 year Reich Neither did Nazi ideology die far right populists would like to see the swastika flown over the White House or Buckingham Palace Against a backdrop of right wing extremism military reenactors think nothing of dressing up in Waffen SS uniforms and romanticising the Third Reich in the name of living history Auctioneers are prepared to hammer down Nazi artefacts to the highest bidder but who is buying them and why do they do so Should collectors be allowed to decorate their homes with Nazi flags

The Anarchy of Nazi Memorabilia begins by examining the creation and context of Nazi artefacts and symbols during the volatile Weimar Republic to their wider distribution during the Third Reich There were few people in Nazi Germany who did not wear a badge or uniform of some sort Whether it be mothers soldiers or concentration camp inmates they were all branded The chapter on the Second World War demonstrates that although German soldiers were cynical about being given medals in exchange for freezing in Russia They still continued to fight for which more decorations were awarded A large proportion of this book is therefore given to the meaning that Nazi symbols had before Nazi Germany was eventually defeated in May 1945 Equally important however and one of the characteristics of this book is the analysis of the meaning and value of Nazi material culture over time The interpreters of Nazi symbols that this book focuses on are internationally based private collectors and traders Sustained attention is given in a chapter outlining the development of the collectors market for Nazi memorabilia from 1945 onwards No matter how much collectors go out of their way to paint the hobby in a positive light their activities do not fully escape the troubled past of the material that they desire So contested are Nazi symbols that another chapter is devoted to the ethics and morals of destroying or preserving them The issues surrounding private versus public custody and ownership of Nazi artefacts are also discussed So far in this book the examination of Nazi artefacts has been restricted to physical objects within societies that are generally aware of the consequences of Hitlerism As we increasingly move into the digital age however and there are few survivors of the Second World War left to relay their horrific experiences the final chapter contemplates the future of Nazi symbols both digitally and physically fake or real This book will appeal to all those interested in the Third Reich Nazi ideology Neo Nazism perceptions of the Nazis post 1945 modern European history and political symbolism It will also hold particular appeal to those interested in the collecting and trading of contested and highly emotive artefacts It considers aesthetics authenticity commodification gift exchange life histories of people and objects materiality and value theory
