Picture Archiving and Communication Systems (PACS) in Medicine K.S. Chuang, H.K. Huang, O. Ratib, A.R. Bakker, G. Witte, 2013-06-29 This volume contains the proceedings of the NATO Advanced Study Institute on Picture Archiving and Communication Systems (PACS) in Medicine held in Evian, France, October 14-26, 1990. The program committee of the institute consisted of H.K. Huang (Director), Osman Ratib, Albert Bakker, and Gerd Witte. This institute brought together approximately 90 participants from 15 countries. These proceedings are the accumulation of eight years of research and development results in PACS by various dedicated groups throughout the world. The purpose of this institute was to review the most recent technology available for PACS and some clinical results. The readers should notice the remarkable advances in this field by comparing the contents in these proceedings with those in a previous institute on Pictorial Information Systems in Medicine held August 27-September 7, 1984, in Braunlage, Harz, Federal Republic of Germany, and published as Vol. 19 in this series. The institute was organized according to four categories: PACS components and system integration; PACS and related research in various countries and manufacturing companies; clinical experience and research support; and participants' scientific communications. In PACS components, we included image acquisition, workstations, data storage, and networking. In system integration, topics on interfaces between Hospital Information System (HIS), Radiology Information System (RIS), and PACS; clinical reports; the ACR-NEMA standard; databases; reliability; and system integration were discussed. This lecture series emphasized the technical detail and how to aspects

Biedert,2005-07-08 Patellofemoral complaints are a major problem for all those working in sports medicine and orthopaedics The correct diagnosis at an early stage is essential if subsequent treatment is to be successful and secondary complications are to be avoided Written by an internationally known team of experts this book looks at the various diagnostic techniques currently available cites examples of unsuccessful treatments and proposes the most appropriate ones on the proven basis of the latest research The core of the book is the 20 case studies ranging from simple non operative treatment to multi operated patients with salvage procedures The underlying theme of the book is that treatment of patellofemoral problems must in the first instance be somewhat conservative Surgical interventions should be performed in a response to a clear underlying pathology and only after non operative treatment has failed Patellofemoral Disorders is enhanced by the inclusion of some superb specially drawn illustrations and numerous colour photographs in the case studies section *Intraoperative Imaging* M. Necmettin Pamir,Volker Seifert,Talat Kiris,2010-10-20 Intraoperative imaging technologies have taken an ever increasing role in the daily practice of neurosurgeons and the increasing attention and interest necessitated international interaction and collaboration The Intraoperative Imaging Society was formed in 2007 This book brings together highlights from the second meeting of the Intraoperative Imaging Society which took place in Istanbul Turkey from June 14 to 17 2009 Included within the contents of the book is an overview of the emergence and development of the intraoperative imaging technology as well as a glimpse on where the technology is heading This is followed by in detail coverage of intraoperative MRI technology and sections on intraoperative CT and ultrasonography There are also sections on multimodality integration intraoperative robotics and other intraoperative technologies We believe that this book will provide an up to date and comprehensive general overview of the current intraoperative imaging technology as well as detailed discussions on individual techniques and clinical results *Women in cardiovascular imaging* Adelina Doltra,Sabina Gallina,Claudia Prieto,Anna Vittoria Mattioli,2023-08-30 **Lung Imaging in Respiratory Failure** Paolo Pelosi,Lorenzo Ball,Patricia R.
