Mobile Virtual Work J.H. Erik Andriessen,Matti Vartiainen,2005-12-16 Dear Reader This is a book about mobile virtual work It aims at clarifying the basic concepts and showing present practices and future challenges The roots of the book are in the collaboration of few European practitioners and searchers who met each other under the umbrella of the Swedish SALTSA programme see next page in January 2002 in Stockholm The group was first called ICT Mobility and Work Organisation but redefined itself quickly as Mobile Virtual Cooperative Work group The change of the name reflects the development of reasoning in the group We could not find much material on mobile work certainly not systematic studies though a growing interest in mobile technologies and services could be found Practices of telework and virtual organizations were better known but we were convinced that the combination with mobile work was so thing different and new Our main target became to understand what it was all about The next step was an expert meeting in October 2004 at R n s Castle again in Sweden A wider group of experts was invited to present their views on mobile virtual work and ideas about book chapters from different perspectives of working life Some of the expertise could be found through the network of the AMI Work family created by the New Working En ronments unit of the European Commission s Information Society Dir torate General Also close collaboration was developed with the related MOSAIC program *Enterprise Knowledge Infrastructures* Ronald Maier,Thomas Hädrich,René Peinl,2005-12-06 Success of an organization is increasingly dependent on its capability to create an environment to improve the productivity of knowledge work This book focuses on the concepts models and technologies that are used to design and implement such an environment It develops the vision of a modular yet highly integrated

enterprise knowledge infrastructure and presents an ideal architecture replete with current technologies and systems The most important streams of technological development that are covered in the book are computer supported cooperative work document and content management e learning enterprise portals information life cycle management knowledge management mobile computing and the Semantic Web It includes learning goals exercises and case examples that help the reader to easily understand and practice the concepts The book is targeted at advanced bachelor and master students Practitioners profit from insights into the importance of technologies and systems and their application *HWM* ,2005-03 Singapore s leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews **HWM** ,2005-08 Singapore s leading tech magazine gives its readers the power to decide with its informative articles and in depth reviews
