d'As Bose,1912      Human Rights Journalism and its Nexus to Responsibility to Protect Senthan Selvarajah,2020-11-12 This book takes a holistic approach by capturing the various perspectives and viewpoints concerning the theory and practice of Human Rights Journalism Firstly this book helps fill the epistemological vacuum present in Human Rights Journalism by proposing pragmatic objectivity within the critical constructivist epistemology Secondly it defines the Human Rights Journalism Responsibility to Protect nexus by identifying five key elements Thirdly it proposes a Human Rights Journalism Responsibility to Protect conceptual model which illustrates how an embedded human rights focussed media strategy can be designed Fourthly this book proposes two novel quantitative analysis tools called the Framing Matrix and the Multimodal Discourse Analysis Matrix that are equipped to deal with a big sample size over a long period of time These tools are used to examine the practice of Human Rights Journalism and the typology of news stories of distant sufferings Finally it provides a scientific explanation for those in search of the answer to why one of the worst humanitarian crises in the world which took place in Sri Lanka in 2009 did not create any global compassion or garner attention      *Doing Business in Today's India* Douglas Bullis,1998-01-13 As the world business climate globalizes and national economies become closely interlinked India looms as the largest country in the world to embrace the market economy Bullis maintains that not only will India be changed by international market forces it will have a significant impact upon the world economy as it emerges as a mass consumer market and an extended low cost manufacturing center But India has problems that pose difficulties for offshore investors Only with a clear idea of Indian business thinking and the relationship of commerce to India s complex mix of traditional caste and religious practices can businesspeople from the West gain any real hope of success This work provides the sort of far reaching information and advice essential for international businesspeople and for researchers and scholars in the academic community who want to be a part of India s economic future Bullis asserts that Indian businesspeople are far more knowledgeable about international markets than most international businesspeople are about India Yet India s long period of socialist dormancy produced very different concepts of management employee relations the role of competition marketing finance and business government relations All these factors will play critical roles in the success or failure of investment plans formulated outside India s borders Moreover Indian people have a more diverse and compartmentalized culture than any other people posing a marketing challenge and challenges of other kinds that outsiders may be ill equipped to handle Bullis s descriptions and analyses of the Indian economy social structure history and business practices will provide the kind of understandings that Westerners need to enter the Indian market and compete successfully      *Women and The Post.Colonial Indian State* Dr. Nilendra Bardiar,2022-03-15 The object of this book is to look into some aspects of law making policy formulations and implementation of the constitutional and legal provisions etc by the post colonial state in India vis vis gender justice and women empowerment and will try to examine the State s perspective on gender relations This will lead to theorizing the nature and character of the Post colonial State from a gender perspective The book will also go into the

participation of women in the movement for their rights and the role of women's socio-political organizations in the process. While the primary concern of the book will be the post-colonial period, yet to put the things in the right perspective and to bring the context, it may be necessary to dwell briefly upon the pre-1947 period also, especially the period of 1920 onwards, to understand the working of the post-colonial state in the aftermath of Independence. During the colonial period, the construction of woman as an individual and as a social-familial being in the Gandhian discourse and Nehruvian vision's divergence from it in the post-colonial period is too important to be left out of the scope of this book.
