tool in clinics and demonstrates how clinicians can use them in physical rehabilitation for various pathologies. It also describes step by step their integration in rehabilitation from the gaming technology used to its application in clinics. Further drawing on an extensive literature review it discusses the pros and cons of videogames and how they can help overcome certain obstacles to rehabilitation. The last part of the book examines the main challenges and barriers that still need to be addressed to increase and improve the use and efficacy of this new technology for patients. The book is intended for physiotherapists and clinicians alike providing a useful tool for all those seeking a comprehensive overview of the field of serious games and considering adding it to conventional rehabilitation treatment.

Case Studies In Japanese

Management Parissa Haghiriian, Philippe Gagnon, 2011-09-30 This book provides a new opportunity for corporate strategy analysis within a Japanese context. It is the first academic textbook to be published in English which regroups case studies to emphasize key concepts in Japanese management. Where previous literature has set a separate focus on cultural managerial and strategic variables a holistic look is now taken at their influence on effective decision making. Over 11 detailed cases depict issues in entering the Japanese market strategic issues when managing in Japan marketing management crisis management cross cultural encounters and future technologies. The sophistication and depth of these studies along with their teaching notes provide the basis for pragmatic analysis. The mysticism surrounding Japanese culture seems magnified by the success of Japanese companies abroad and the shortcomings of many MNEs that entered Japan ineffectively. Studying the empirical implications of these issues is a helpful exercise to develop more acute management reflexes in a Japanese setting. The book's carefully laid out cases will benefit business and humanities students who are researching Japan as well as professionals who work within this sphere.
