Coates, 2015-07-28 Canada is a country founded on relationships and agreements between Indigenous peoples and newcomers Although recent court cases have upheld Aboriginal title rights the cooperative spirit of the treaties is being lost as Canadians engage in endless arguments about First Nations issues Each new court decision adds fuel to the debate raging between those who want to see an end to special Aboriginal rights and those who demand a return to Aboriginal sovereignty Greg Poelzer and Ken Coates breathe new life into these debates by looking at approaches that have failed and succeeded in the past and offering all Canadians from policy makers to concerned citizens realistic steps forward Rather than getting bogged down in debates on Aboriginal rights they highlight Aboriginal success stories and redirect the conversation to a place of common ground Upholding equality of economic opportunity as a guiding principle they argue that the road ahead is clear if all Canadians take up their responsibilities as treaty peoples Canada will become a leader among treaty nations Urban Neighborhoods in a New Era Clarence N. Stone, Robert P. Stoker, 2015-09-18 For decades North American cities racked by deindustrialization and population loss have followed one primary path in their attempts at revitalization a focus on economic growth in downtown and business areas Neighborhoods meanwhile have often been left severely underserved There are however signs of change This collection of studies by a distinguished group of political scientists and urban planning scholars offers a rich analysis of the scope potential and ramifications of a shift still in progress Focusing on neighborhoods in six cities Baltimore Chicago Denver Los Angeles Phoenix and Toronto the authors show how key players including politicians and philanthropic organizations are beginning to see economic growth and neighborhood improvement as complementary goals The heads of universities and hospitals in central locations also find themselves facing newly defined realities adding to the fluidity of a new political landscape even as structural inequalities exert a continuing influence While not denying the hurdles that community revitalization still faces the contributors ultimately put forth a strong case that a more hospitable local milieu can be created for making neighborhood policy In examining the course of experiences from an earlier period of redevelopment to the present postindustrial city this book opens a window on a complex process of political change and possibility for reform **Home Informatics and Telematics: ICT for the Next Billion** Alladi Venkatesh, Timothy Gonzalves, Andrew Monk, Kathy Buckner, 2007-11-15 This volume represents the papers reviewed and accepted for the HOIT2007 conference held at the Indian Institute of Technology Madras IIT M in the city of Chennai India in August 2007 The conference entitled Home Community Oriented ICT for the Next Billion addressed many major themes of current interest in this field In particular the focus was on community based technologies The conference was organized by IFIP working Group 9.3 Home Oriented Informatics and Telematics HOIT in association with the TeNeT Group of the Indian Institute of Technology Madras The conference papers cover a wide range of topics that

The

Tabernacled Presence of God Susan Booth, 2015-09-18 Although a large majority of believers agree that they should share their faith most report that they in fact do not That s not really all that surprising given today s pluralistic cultural setting But maybe this same culture s longing for transcendence community and a place to call home points to a backstory that makes sense of it all If such a narrative exists it deserves a hearing and those who know and live this story have both the responsibility and privilege of sharing its message of hope The narrative of the Bible tells just such a story where God s purpose from the beginning has been to dwell or tabernacle in the midst of the people he has created This book traces the theme of God s tabernacled presence across Scripture reading the story afresh through a missional lens in order to gain insights for mission and gospel witness The hope is that readers will awaken wide eyed to the wonder of God s tabernacled presence in our midst that we will live in such a way that others recognize this reality and that we will boldly and joyfully share the good news of Jesus under the direction and power of his indwelling Spirit

Changing Neighbourhoods Jill Grant, Alan Walks, Howard Ramos, 2020-03-15 In recent decades growing inequality and polarization have been reshaping the social landscape of Canada s metropolitan areas changing neighbourhoods and negatively affecting the lived realities of increasingly diverse urban populations This book examines the dimensions and impacts of increased economic inequality and

urban socio spatial polarization since the 1980s Based on the work of the Neighbourhood Change Research Partnership an innovative national comparative study of seven major cities the authors reveal the dynamics of neighbourhood change across the Canadian urban system By mapping average income trends across neighbourhoods they show the kinds of factors social economic and cultural that influenced residential options and redistributed concentrations of poverty and affluence While the heart of the book lies in the project s findings from each city other chapters provide critical context Taken together they offer important understandings of the depth and the breadth of the problem at hand and signal the urgency for concerted policy responses in the decades to come

Host Cities and the Olympics Harry H. Hiller,2014 Rather than interpreting the Olympics as primarily a sporting event of international or national significance this book understands the Games as a civic project for the host city that serves as a catalyst for a variety of urban interests over a period of many years from the bidding phase through the event itself Traditional Olympic studies have tended to examine the Games from an outsider s perspective or as something experienced through the print media or television In contrast the focus presented here is on the dynamics within the host city understood as a community of interacting individuals who encounter the Games in a variety of ways through support opposition or even indifference but who have a profound influence on the outcome of the Games as actors and players in the Olympics as a drama Adopting a symbolic interactionist approach the book offers a new interpretive model through which to understand the Olympic Games by exploring the relationship between the Games and residents of the host city Key analytical concepts such as framing dramaturgy the public realm and the symbolic field are introduced and illustrated through empirical research from the Vancouver 2010 Winter Games and it is shown how the social media and shifts in public opinion reflected interaction effects within the city By filling a clear lacuna in the Olympic Studies canon this book is important reading for anybody with an interest in the sociology of sport urban studies event studies or urban sociology
