

GEOGRAPHY GRADE 8 TERM 3 OF

Topic 3 Settlement

Unit 1 Settlement and Land Use

Urban settlements

1. Rural settlements are in the countryside far away from a city or village. Most people in rural settlements work on the fields.
2. Urban settlements are large, built-up places like towns and cities. People living in urban settlements work in different places such as shops, banks, hospitals and for government

In South Africa in 2012, out of a total population of 51.77 million, about 32 million people (62%) live in urban settlements.

In certain countries, few people live in urban settlements, while in other countries the majority of people live in urban settlements.

Cairo (Egypt) and Lagos (Nigeria) are Africa's largest cities; each has a population of about 11 million.

Land use within urban settlements

Functions of cities, and what cities offer people:

Large cities and towns have many features and offer people who stay there various activities and services.

EXAMPLES:

1. Employment: work, for example, as shop assistant, taxi driver, bank manager, factory worker, handheld dealer, government department worker
2. Place of residence: places to live, for example, in high-block apartments, informal houses, townhouses, large suburban houses, street dwellers
3. Entertainment and recreation: sports, learning and fun, for example, movies, theater, gym, music, art galleries, libraries, restaurants, clubs
4. Services: for example, doctor, dentist, traditional healer, hairdresser, architect, education, finance (banks, stock exchange), electricity and water supply
5. Transportation: for example, cars, trains, buses, underground trains, boats
6. Religion: places of worship, for example, mosques, temples, churches.

How Land Is Used in Cities and Towns

SSG – the Central Business District: usually the centre of a city where there are the tallest buildings; the busiest part of the city – lots of people and cars; costs of land and rent are usually very high; most large companies have their offices there.

Transition zone: the area around the SSG. It is called the "transition" because the buildings and land use here are changing—some parts are old and dilapidated, other parts have been repaired and renovated. This
