Singing with the Mountains William Sherman, 2023-12-05 An illuminating story of a Sufi community that sought the revelation of God In the Afghan highlands of the sixteenth century the messianic community known as the Roshaniyya not only desired to find God's word and to abide by it but also attempted to practice God's word and to develop techniques of language intended to render their own tongues as the organs of continuous revelation As their critics would contend however the Roshaniyya attempted to make language do something that language should not do infuse the semiotic with the divine Their story thus ends in a tower of skulls the proliferation of heresiographies that detailed the sins of the Roshaniyya and new formations of Afghan identity In *Singing with the Mountains* William E B Sherman finds something extraordinary about the Roshaniyya not least because the first known literary use of vernacular Pashto occurs in an eclectic Roshani imitation of the Qur'an The story of the Roshaniyya exemplifies a religious culture of linguistic experimentation In the example of the Roshaniyya we discover a set of questions and anxieties about the capacities of language that pervaded Sufi orders imperial courts groups of wandering ascetics and scholastic networks throughout Central and South Asia In telling this tale Sherman asks the following questions How can we make language shimmer with divine truth How can letters grant sovereign power and form new ethnic identities and ways of belonging How can rhyme bend our conceptions of time so that the prophetic past comes to inhabit the now of our collective moment By analyzing the ways in which the Roshaniyya answered these types of questions and the ways in which their answers were eventually rejected as heresies this book offers new insight into the imaginations of religious actors in the late medieval and early modern Persianate worlds
