Army Continuity of Operations (COOP) Program Policy and Planning* Department of the Army Headquarters, Department of the Army, 2015-07-07 This regulation establishes responsibilities policies and planning guidance to ensure the effective execution of critical Army missions and the continuation of mission essential functions MEFs under all circumstances All Department of the Army DA continuity related activities will be coordinated and managed under the Army Continuity of Operations COOP Program This regulation is the proponent policy document for the U S Army COOP program If there is any conflict in this guidance with any other Army regulation pamphlet or other Army document this regulation takes precedence A COOP plan is complementary to other continuity programs and is a part of the foundation for Army COOP *Preparing the U.S. Army for Homeland Security* Eric V. Larson, John E. Peters, 2001-03-26 Homeland security encompasses five distinct missions domestic preparedness and civil support in case of attacks on civilians continuity of government continuity of military operations border and coastal defense and national missile defense This report extensively details four of those mission areas national missile defense having been covered in great detail elsewhere The authors define homeland security and its mission areas provide a methodology for assessing homeland security response options and review relevant trend data for each mission area They also assess the adequacy of the doctrine organizations training leadership materiel and soldier systems and provide illustrative scenarios to help clarify Army planning priorities The report concludes with options and recommendations for developing more cost effective programs and recommends a planning framework that can facilitate planning to meet homeland security needs *Emergency Employment of Army and Other Resources* Department of the Army, 2008-05-23 1 1 Purpose This regulation establishes responsibilities policies and planning guidance to ensure the effective execution of critical Army missions and the continuation of mission essential functions MEFs under all circumstances All Department of the Army DA continuity related activities will be coordinated and managed under the Army Continuity of Operations COOP Program This regulation is the proponent policy document for the U S Army COOP program If there is any conflict in this guidance with any other Army regulation pamphlet or other Army document this regulation takes precedence A COOP plan is complementary to other continuity programs and is a part of the foundation for Army COOP *Professional Journal of the United States Army* , 2011-05 **The U.S. Army and World War II** Judith Bellafaire, 1998 The U S Army and World War II is an anthology of selected papers from three international conferences held in 1990 1992 and 1994 on the Army's role in the war Taking the best from those meetings Judith L Bellafaire has organized the various presentations into four thematic

categories prewar planning the home front the European theater and the Asian Pacific theaters reflecting the diversity of both the war and the interest of those seeking to understand its many facets In these carefully edited papers one will find the more conventional treatments of doctrine strategy and operations side by side with those focusing on military mobilization and procurement race and gender psychological warfare and large scale advice and assistance programs Despite significant changes in military technology and the geopolitical landscape of the world since those desperate times the human problems highlighted by the authors are not much different from many of those facing Army leaders today Although the past can never provide the specific recipes needed for the future experience has shown that both the basic ingredients and the manner in which they are prepared and processed have remained remarkably constant Those grappling with the challenges of stability operations and other contingency missions in support of the Global War on Terrorism will find this collection of readings invaluable

Shaping American Military Capabilities after the Cold War Richard Lacquement, 2003-02-28 For more than 40 years U S defense policy and the design of military capabilities were driven by the threat to national security posed by the Soviet Union and its allies As the Soviet Union collapsed analysts wondered what effect this dramatic change would have upon defense policy and the military capabilities designed to support it Strangely enough this development would ultimately

have little effect on our defense policy Over a decade later American forces are a smaller but similar version of their Cold War predecessors The author argues that despite many suggestions for significant change the bureaucratic inertia of comfortable military elites has dominated the defense policy debate and preserved the status quo with only minor exceptions This inertia raises the danger that American military capabilities will be inadequate for future warfare in the information age In addition such legacy forces are inefficient and inappropriately designed for the demands of frequent and important antiterrorist and peace operations Lacquement offers extensive analysis concerning the defense policymaking process from 1989 to 2001 including in particular the 2001 Quadrennial Defense Review This important study also provides a set of targeted policy recommendations that can help solve the identified problems in preparing for future wars and in better training for peace operations

Energy Master Planning toward Net Zero Energy Resilient Public Communities

Guide Alexander Zhivov, 2022-06-13 Best practices from around the world have proven that holistic Energy Master Planning can be the key to identifying cost effective solutions for energy systems that depend on climate zone density of energy users and local resources Energy Master Planning can be applied to various scales of communities e g to a group of buildings a campus a city a region or even an entire nation Although the integration of the energy master planning into the community master planning process may be a challenging task it also provides significant opportunities to support energy efficiency and community resilience by increasing budgets for investments derived from energy savings by providing more resilient and cost effective systems by increasing comfort and quality of life and by stimulating local production which boosts local economies The Guide is designed to provide a valuable information resource for those involved in community planning energy systems engineers architects energy managers and building operators Specifically this Guide was developed to support the application of the Energy Master Planning process through the lens of best practices and lessons learned from case studies from around the globe The Guide introduces concepts and metrics for energy system resilience methodologies and discusses business and financial models for Energy Master Plans implementation This information can help planners to establish objectives and constraints for energy planning and to select and apply available technologies and energy system architectures applicable to their diverse local energy supply and demand situations This Guide is a result of research conducted under the International Energy Agency IEA Energy in Buildings and Communities EBC Program Annex 73 and the US Department of Defense Environmental Security Technology Certification Program ESTCP project EW18 5281 to support the planning of Low Energy Resilient Public Communities process that is easy to understand and execute

Defense Manpower Planning William J. Taylor, Eric T. Olson, Richard A.

Schrader, 2013-10-22 Defense Manpower Planning discusses the important set of national security issues related to defense manpower for the 1980s. The topics in the text focus on the problems of manpower acquisition and retention. The historical background and description of the military power during the 1970s and 1980s are given in detail. A military manpower chronology is provided. The book enumerates some of the manpower issues and debates. Such salient issues as the quantity quality socio economic factors and the issue of cost combat effectiveness and readiness factors are carefully considered. After listing the issues solutions are then presented. The variants of the all volunteer force of conscription and combining volunteers and conscripts are suggested. A part of the book focuses on active duty forces. The issue of employing women in the military is fully addressed. A description of combat is also tackled. A section of the text explains the relationship between precision guided munitions and the volunteer force. The book will provide useful information to defense military planners historians and students of history. 63 Documents the Government Doesn't Want You to Read Jesse Ventura, Dick

Mobility, shock, and firepower: The Emergence of the U.S. Army's Armor Branch, 1917-1945 Robert S. Cameron, The following pages provide a narrative

analysis of the U S Army s development of armored organizations and their related doctrine materiel and training activities in the period 1917 1945. The development of new armor doctrines and organizations to exploit emerging technologies concepts and missions is the heart of this work. How that transition was accomplished during the brief space of about twenty years the accepted duration of a single generation is a story worthy of careful examination as our Army gropes with managing similar transformations today.
