continuing to the promotion of intelligent design today Michael Lienesch skillfully analyzes one of the most formidable political movements of the twentieth century Applying extensive original sources and social movement theory Lienesch begins with fundamentalism describing how early twentieth century fundamentalists worked to form a collective identity to develop their own institutions and to turn evolution from an idea into an issue He traces the emerging antievolution movement through the 1920s examining debates over Darwinism that took place on college campuses and in state legislatures throughout the country With fresh insights and analysis Lienesch retells the story of the 1925 Scopes monkey trial and reinterprets its meaning In tracking the movement from that time to today he explores the rise of creation science in the 1960s the alliance with the New Christian Right in the 1980s and the development of the theory of intelligent design in our own time He concludes by speculating on its place in the politics of the twenty first century In the Beginning is essential for understanding the past present and future debates over the teaching of evolution Teaching Anticommunism Hubert Villeneuve, 2020-04-16 Fred C Schwarz 1913 2009 was an Australian born medical doctor and evangelical preacher who settled in the United States in the early 1950s where he founded the Christian Anti Communism Crusade His work as an anticommunist educator spanned five decades his campaigns attracted large crowds strengthened grassroots conservatism and influenced political leaders By the late 1950s the Crusade had become one of the most important conservative organizations in America turning numerous citizens into lifelong right wing militants In Teaching Anticommunism Hubert Villeneuve sheds light on Schwarz s fascinating career and organization which left a distinct mark on the United States and was also active internationally Cold War anticommunism in the US consisted of more than the House Un American Activities Committee and the campaign led by Senator Joseph McCarthy Villeneuve shows that by the early 1960s Schwarz s Crusade was an integral part of a burgeoning American anticommunist subculture that united grassroots conservatives of all stripes Its influence continued paving the way for the development of the New Right that began in the 1970s In addition to exploring the life and work of Schwarz the book highlights the transnational dimension of US conservatism by outlining the Crusade s role in worldwide anticommunist networks that operated throughout the Cold War Packed with unnerving evidence but leavened with humorous anecdotes and insights into a mercurial figure Teaching Anticommunism provides a unique perspective on the evolution of the contemporary American right wing and its global connections **Notes, questions, and answers on the Gospels for the Christian year [signed J.F.]** John Flint (inspector of schools.), 1863 Flying Magazine , 1991-11 Outlook Alfred Emanuel Smith, Francis Walton, 1878 The Sunday-school World , 1898 The Holy Bible ... with Explanatory Notes ...
