Warren, 2023-10-03 Published under the auspices of the American Revolution Institute of the Society of the Cincinnati Freedom The Enduring Importance of the American

Revolution is a narrative history of the War for Independence. It tells the pivotal story of the courageous men and women who risked their lives to create a new nation based on the idea that government should serve people and protect their freedom. Written for Americans intent on understanding our national origins but also appropriate for teachers and secondary classrooms, *Freedom* argues that the American Revolution is the central event in our history, the turning point between our colonial origins and our national experience. This volume includes 167 full color paintings, maps, illustrations, and photos, many of them seen only in historical institutions across the country. The *Freedom* narrative spans from the American Revolution's origins in the nature of colonial British America, a society in which freedom was limited and in which everyone was the subject of a distant monarch, through the crisis in the British Empire that followed the French and Indian War to the events of the War for Independence itself and ultimately to the creation of the first great republic in modern history. This is the story of how Americans came to fight for their freedom and became a united people with a shared history and national identity and how a generation of founders expressed ideals of liberty, equality, natural and civil rights, and responsible citizenship ideals that have shaped our history and will shape our future and the future of the world. **Whole Novels for the Whole Class**

Includes a powerful method for teaching literature writing and critical thinking to middle school students. Shows how to use the *Whole Novels* approach in conjunction with other programs. Interpreting Agriculture in Museums and Historic Sites orients readers to major themes in agriculture and techniques in education and interpretation that can help you develop humanities-based public programming that enhance agricultural literacy. Case studies illustrate the ways that local research can help you link your history organization to compelling local, national, even international stories focused on the multidisciplinary topic. That ordinary plow, pitch fork, and butter paddle can provide the tangible evidence of the story worth telling, even if the farm land has disappeared into subdivisions and agriculture seems as remote as the nineteenth century. Other topics include discussion of alliances between rural tourism and community-supported agriculture, farmland conservation and stewardship, heritage breed and seed preservation efforts, and antique tractor clubs. Any of these can become indispensable partners to history organizations searching for a new interpretive theme to explore and new partners to engage. **A Nervous State** Nancy Rose Hunt, 2015-12-30. In *A Nervous*

State Nancy Rose Hunt considers the afterlives of violence and harm in King Leopold's Congo Free State. Discarding catastrophe as narrative form, she instead brings alive a history of colonial nervousness. This mood suffused medical investigations, security operations, and vernacular healing movements. With a heuristic of two colonial states, one nervous, one biopolitical, the analysis alternates between medical research into birthrates, gonorrhea, and childlessness, and the securitization of subaltern therapeutic insurgencies. By the time of Belgian Congo's famed postwar developmentalist schemes, a shining infertility clinic stood near a bleak penal colony, both sited where a notorious Leopoldian rubber company once enabled rape and mutilation. Hunt's history bursts with layers of perceptibility and song, conveying everyday surfaces and daydreams of subalterns and colonials alike. Congolese endured and evaded forced labor and medical and security screening. Quick-witted, they stirred unease through healing, wonder, memory, and dance. This capacious medical history sheds light on Congolese sexual and musical economies, on practices of distraction, urbanity, and hedonism. Drawing on theoretical concepts from Georges Canguilhem, Georges Balandier, and Gaston Bachelard, Hunt provides a bold new framework for teasing out the complexities of colonial history.

Psychology of a Superpower Christopher Fettweis, 2018-05-15 With the collapse of the Soviet Union, the United States was left as the world's sole superpower, which was the dawn of an international order known as unipolarity. The ramifications of imbalanced power extend around the globe, including the country at the center. What has the sudden realization that it stands alone atop the international hierarchy done to the United States? In *Psychology of a Superpower*, Christopher J. Fettweis examines how unipolarity affects the way U.S. leaders conceive of their role, make strategy, and perceive America's place in the world. Combining security strategy and psychology, Fettweis investigates how the idea of being number one affects the decision-making of America's foreign policy elite. He examines the role the United States plays in providing global common goods such as peace and security, the effect of the Cold War's end on nuclear weapon strategy and policy, the psychological consequences of unbalanced power, and the grand strategies that have emerged in unipolarity. Drawing on psychology's insights into the psychological and behavioral consequences of unchecked power, Fettweis brings new insight to political science's policy analysis toolkit. He also considers the prospect of the end of unipolarity, offering a challenge to widely held perceptions of American indispensability and asking whether the unipolar moment is worth trying to save. *Psychology of a Superpower* is a provocative rethinking of the risks and opportunities of the global position of the United States, with significant consequences for U.S. strategy, character, and identity.

Protocols to Festering Island Disputes Godfrey Baldacchino, 2017-04-28 Since the coming into force of the United Nations Law of the Sea, states have been targeting outlying islands to expand their exclusive economic zones, simultaneously stirring up strident nationalism when such plans clash with those of neighbouring states. No such actions have brought the world closer to the brink of war than the ongoing face-off between China and Japan over the Diaoyu/Senkaku islands, an uninhabited archipelago in the East China Sea. In this timely and original book, Godfrey Baldacchino provides a detailed exploration of

seven tried and tested solution protocols that have led to innovative win win solutions to island disputes over the last four centuries A closer look at the circumstances and processes that brought contending regional powers to an honourable even mutually advantageous settlement over islands provides a convincing and original argument as to why the conflict over the Diaoyu Senkaku islands need not conclude in a zero sum or winner takes all solution as is the likely outcome of both open conflict and international arbitration The book will be of interest to scholars and practitioners concerned with the festering Diaoyu Senkaku dispute as well as students scholars and policy specialists in geography geopolitics international relations conflict studies island studies Asian studies and history

Rupturing Rhetoric Byron B Craig, Patricia G. Davis, Stephen E. Rahko, 2024-06-20 Contributions by Maksim Bugrov Byron B Craig Patricia G Davis Peter Ehrenhaus Whitney Gent Christopher Gilbert Oscar Giner J Scott Jordan Euni Kim Melanie Loehwing Jaclyn S Olson A Susan Owen Stephen E Rahko Nick J Sciullo Arthur D Soto V Squez and Erika M Thomas The events surrounding the 2014 killing of Michael Brown in Ferguson Missouri marked a watershed moment in US history Though this instance of police brutality represented only the latest amid decades of similar unjust patterns it came to symbolize state complicity in the deployment of violence to maintain racial order *Rupturing Rhetoric: The Politics of Race and Popular Culture* since Ferguson responds to the racial rhetoric of American popular culture in the years since Brown's death Through close readings of popular media produced during the late Obama and Trump eras this volume details the influence of historical and contemporary representations of race on public discourse in America Using Brown's death and the ensuing protests as a focal point contributors argue that Ferguson marks the rupture of America's postracial fantasy An ideology premised on colorblindness the notion of the postracial suggests that the United States has largely achieved racial equality

and that race is no longer a central organizing category in American society Postracialism is partly responsible for ahistorical romanticized narratives of slavery Jim Crow segregation and American exceptionalism The legitimacy of this fantasy the editors contend was the first casualty of the tanks tear gas and rubber bullets wielded against protesters during the summer of 2014 From these protests emerged a new political narrative organized around BlackLivesMatter which directly challenged the fantasy of a postracial American society Essays in Rupturing Rhetoric cover such texts as Fresh Off the Boat Hamilton Green Book NPR's American Anthem Lovecraft Country Disney remakes of Dumbo The Lion King and Lady and the Tramp BlacKkKlansman Crazy Rich Asians The Hateful Eight and Fences As a unified body of work the collection interrogates the ways contemporary media in American popular culture respond to and subvert the postracial fantasy underlying the politics of our time
