Davies,2017-03-02 In much of the developed world learning is synonymous with the formal structured processes that involve teachers lecturers or trainers Yet it is experience that is by far the most influential teacher that any of us will have from the very first moment we are born Lloyd Davies puts forward a new way of looking at experiential learning a model that identifies the elements and points to some of the dynamics The book highlights the characteristics that are common to the learning process explains how we learn from experience and why each of us sees our experiences in different ways and consequently learns different lessons It provides advice and guidance on how each of the various elements of the process can be used to greater effect both for individual and group learning as well as in mentoring and counselling The book which is based on the author s research is written for a wide readership that includes both learning practitioners and students If individuals and the organizations within which they work as students or as employees understand the basis on which they learn and can turn the process from a passive to an active one the implications for their development are profound Lloyd Davies model for Informal Learning provides a relevant flexible and significant tool that can offer a sea change in the way we all learn
