Kristján Kristjánsson

Short Essay About Friendship:

Aristotle and the Philosophy of Friendship Lorraine Smith Pangle, 2002-11-14 This book offers a comprehensive account of the major philosophical works on friendship and its relationship to self love The book gives central place to Aristotle's searching examination of friendship in the Nicomachean Ethics Lorraine Pangle argues that the difficulties surrounding this discussion are soon dispelled once one understands the purpose of the Ethics as both a source of practical guidance for life and a profound theoretical investigation into human nature The book also provides fresh interpretations of works on friendship by Plato Cicero Epicurus Seneca Montaigne and Bacon The author shows how each of these thinkers sheds light on central questions of moral philosophy is human sociability rooted in neediness or strength is the best life chiefly solitary or dedicated to a community with others Clearly structured and engagingly written this book will appeal to a broad swathe of readers across philosophy classics and political science

Friendship for Virtue Kristján Kristjánsson, 2022-09-01 Through its revised and applied Aristotelianism this book illuminates our understanding of friendship in moral philosophy moral psychology and moral education Friendship for Virtue has four main aims The first is to give the virtue of friendship the pride of place it deserves in contemporary Aristotle inspired virtue ethics The second is to integrate Aristotelian theory with recent social scientific research on friendship through mutual adjustments The third is to retrieve Aristotelian friendship as a moral educational concept where friendship for virtue is to be understood as friendship for virtue development The fourth is to offer a more detailed and realistic account than Aristotle did of why even the best of friendships can go stale and dissolve and why the human relationships they represent are so precarious for example in circumstances where erotic love and friendship clash

How to Be a Friend Marcus Tullius Cicero, 2018-10-09 A splendid new translation of one of the greatest books on friendship ever written In a world where social media online relationships and relentless self absorption threaten the very idea of deep and lasting friendships the search for true friends is more important than ever In this short book which is one of the greatest ever written on the subject the famous Roman politician and philosopher Cicero offers a compelling guide to finding keeping and appreciating friends With wit and wisdom Cicero shows us not only how to build friendships but also why they must be a key part of our lives For as Cicero says life without friends is not worth living Filled with timeless advice and insights Cicero's heartfelt and moving classic written in 44 BC and originally titled De Amicitia has inspired readers for more than two thousand years from St Augustine and Dante to Thomas Jefferson and John Adams Presented here in a lively new translation with the original Latin on facing pages and an inviting introduction How to Be a Friend explores how to choose the right friends how to avoid the pitfalls of friendship and how to live with friends in good times and bad Cicero also praises what he sees as the deepest kind of friendship one in which two people find in each other another self or a kindred soul An honest and eloquent guide to finding and treasuring true friends How to Be a Friend speaks as powerfully today as when it was first written

Men and Women Making Friends in Early Modern France Lewis C. Seifert, Rebecca M. Wilkin, 2016-03-03 Today the friendships that grab people s imaginations are those that reach across inequalities of class and race The friendships that seem to have exerted an analogous level of fascination in early modern France were those that defied the assumption inherited from Aristotle and patristic sources that friendships between men and women were impossible Together the essays in *Men and Women Making Friends in Early Modern France* tell the story of the declining intelligibility of classical models of male friendship and of the rising prominence of women as potential friends The revival of Plato s friendship texts in the sixteenth century challenged Aristotle s rigid ideal of perfect friendship between men In the seventeenth century a new imperative of heterosociality opened a space for the cultivation of cross gender friendships while the spiritual friendships of the Catholic Reformation modeled relationships that transcended the gendered dynamics of galanterie *Men and Women Making Friends in Early Modern France* argues that the imaginative experimentation in friendships between men and women was a distinctive feature of early modern French culture The ten essays in this volume address friend making as a process that is creative of self and responsive to changing social and political circumstances Contributors reveal how men and women fashioned gendered selves and also circumvented gender norms through concrete friendship practices By showing that the benefits and the risks of friendship are magnified when gender roles and relations are unsettled the essays in this volume highlight the relevance of early modern friend making to friendship in the contemporary world
