Forces of Nature Gina DeMillo Wagner,2024-05-14 *FORCES OF NATURE* explores the intersections of disability and loss nature and nurture families of origin and families of choice It begins with the moment the author Gina DeMillo Wagner finds out her brother Alan who had a complicated genetic disorder is dead From there she takes readers along as she is pulled away from the safety of her friends away from her husband and kids and thrust back into a family she has been estranged from for nearly ten years The memoir documents this rewinding and revisiting of the past plus Alan s Christmas themed funeral an investigation into Alan s cause of death Wagner s unraveling in the face of complicated grief and finally the day ten months later when her parents divide his cremated remains and bury him in separate states Within this framework Wagner weaves in scenes from her childhood that illustrate what it s like to be a sister and caregiver to a sibling with disabilities the daughter of a mentally ill parent and how she forges her own path and find peace by creating a family of choice **How Parents Can Help Kids Improve Test Scores** Steven Schneider,2013-12-18 Steven Schneider s newly

revised second edition of *How Parents Can Help Kids Improve Test Scores Taking the Stakes Out of Literacy Testing* highlights the most recent literacy initiatives in America since the federal act of No Child Left Behind. His book has been redesigned to further help teachers and parents navigate through the maze of newly developed state standardized testing in reading and writing so students may be able to achieve greater success. By using the proactive methods shown in this book and by following easily understood step by step instructions, parents and teachers can begin to help their children take the first steps down the road to literacy and to understanding the Common Core language arts subjects. This book features time tested activities, suggestions, and a plethora of practical advice to assist teachers and parents in raising children's scores on standardized state reading tests. By utilizing the highly prescriptive Pinpoint Reading Program, newly revised in this second edition, parents and teachers will gain new insights into the format, style, and objectives of these tests and how they can assist children to score higher. Most importantly, this book instills the confidence that children need to achieve the success that they rightfully deserve and for which their parents and teachers have come to expect. *Kiddie Lit* Beverly Lyon

Clark, 2005-01-02 Honor Book for the 2005 Book Award given by the Children's Literature Association. The popularity of the Harry Potter books among adults and the critical acclaim these young adult fantasies have received may seem like a novel literary phenomenon. In the nineteenth century, however, readers considered both Tom Sawyer and Huckleberry Finn as works of literature equally for children and adults; only later was the former relegated to the category of boys' books while the latter, even as it was canonized, came frequently to be regarded as unsuitable for young readers. Adults, women, and men wept over *Little Women*. And America's most prestigious literary journals regularly reviewed books written for both children and their parents. This egalitarian approach to children's literature changed with the emergence of literary studies as a scholarly discipline at the turn of the twentieth century. Academics considered children's books an inferior literature and beneath serious consideration. In *Kiddie Lit*, Beverly Lyon Clark explores the marginalization of children's literature in America and its recent possible reintegration both within the academy and by the mainstream critical establishment. Tracing the reception of works by Mark Twain, Louisa May Alcott, Lewis Carroll, Frances Hodgson Burnett, L. Frank Baum, Walt Disney, and J. K. Rowling, Clark reveals fundamental shifts in the assessment of the literary worth of books beloved by both children and adults, whether written for boys or girls. While uncovering the institutional underpinnings of this transition, Clark also attributes it to changing American attitudes toward childhood itself, a cultural resistance to the intrinsic value of childhood expressed through sentimentality, condescension, and moralizing. Clark's engaging and enlightening study of the critical disregard for children's books since the end of the nineteenth century, which draws on recent scholarship in gender, cultural, and literary studies, offers provocative new insights into the history of both children's literature and American literature in general and forcefully argues that the books our children read and love demand greater respect. *Young People, Border Spaces and Revolutionary Imaginations* Stuart Aitken, Fernando Bosco, Thomas Herman, Kate Swanson, 2013-12-16 Drawing from

discussions that pulled together child researchers working near the borders of Mexico the United States and Canada this book explores how material and metaphoric borders give way to young people's experimentations with cultural social and political change The contributors highlight the capacities of children to revolutionize thought and practice through creative reimagining of the boundaries borders events circumstances and familial relations that affect their everyday lives The first section in different ways highlights borders and movements through them as a bricolage of images symbols tensions and joys In the second section the idea of a portable border is explored in three chapters that consider a migrants lifecourse citizenship and political activism respectively The last section of the book brings together three chapters that uncover how youth resist confront and transform the borders that envelop their lives By weaving narratives pertaining to young people's creative stories transnational migrations personal identities pen pal programs masculinities intergenerational change border crossings political activism and addictions the contributors in toto raise the idea of young people taking bounded and embodied events places and institutions and moving them towards something emancipatory sin fronteras without borders

Mullineaux, Maryann Karinch, 2016-05-26 Blending Families responds to the need for a book that explores step parenting by starting with the marriage as the central relationship in a new blended family unit Just as you are better able to help your child in an airplane emergency if you put your oxygen mask on first you are better able to blend two families if you take care of the marriage first Starting with a discussion of attachment styles the authors explore how those styles translate into the new family unit when trying to forge a new marriage while parenting tween and teen children in a family unit that is new to them as well They provide parenting guidance premised on the fact that parenting occurs within a context and in this case a context that is unfamiliar territory for everyone involved Using true stories throughout they explore the variety of challenges that may arise such as sibling rivalry puberty dating emotional and intellectual differences and preferential treatment and offer suggestions for overcoming obstacles to fully blending By focusing the light on the marriage as the most important source of stability the authors encourage readers to develop a style of parenting that works for everyone and brings a sense of unity and strength to the household **The Kids Are in Charge** Jessica K. Taft, 2019-09-10

Details the possibilities and challenges of intergenerational activism and social movements Since 1976 the Peruvian movement of working children has fought to redefine age based roles in society including defending children's right to work In The Kids Are in Charge Jessica K Taft gives us an inside look at this groundbreaking intergenerational social movement showing that kids can and should be respected as equal partners in economic social and political life Through participant observation Taft explores how the movement has redefined relationships between kids and adults how they put these ideas into practice within their organizations and how they advocate for them in larger society Ultimately she encourages us to question the widely accepted beliefs that children should not work or participate in politics The Kids Are in Charge is a provocative invitation to re imagine
