

My Family Values

2 pages | 445 words

My family provided me with a loving and supportive environment. I have been very blessed to have so many positive influences in my life. My parents & my grandmother have always told me that failure is not an option and to always dream big. My family culture has taught me to be kind, passionate, and respectful of others. I come from a family of educators who are very passionate about their field of work. My grandmother has been a school teacher for over 25 years. She returned to college and attained her Master's degree, in spite of facing many obstacles. She has always stressed to me that getting a great education is key and important. She is an awesome role model and has been a huge positive influence in my life when it comes to my education. I always go above and beyond to make sure that I do my best in school. My parents have taught me to always be of good moral character and to value myself and others. They both strongly believe in paying it forward & giving back to those who are less fortunate. My mother was a youth recreational volunteer cheer coach for 5 years. She worked with high risk kids after school providing a positive environment for them. She made me realize over the years that some of the smallest things we take for granted could make a huge difference in another person's life. My mom showed me what it is to be a compassionate leader. Both of my parents have taught me that hard work does pay off. It is because of them that I have a very strong work ethic. I was raised by a mother that wanted all of her children to be involved in something positive, which would result in making lifetime memories, new relations and discovering doors of opportunities. My parents always made sure we stayed involved in multiple community activities, helping others in any way that we could. We had a yearly Christmas family tradition and we would volunteer to sing at various nursing homes during the holiday season. Some of the elderly would sing along with us. The smiles on the residents' faces were priceless. It meant so much to me and my family to know that the sound of our voices was bringing them so much joy. As I move into this next phase of college life, I am so grateful that I have family who believes in me and has taught me to believe in myself at all times. My family has had a huge impact on my life and have motivated me to continually strive for success.

ideology Using the methods of intellectual history and drawing on insights from critical race studies Cornelissen explores the
various racial constructs that structure neoliberal ideology some of which are explicit while others are more coded Beginning
in the interwar period and running through to recent developments Neoliberalism and Race shows that racial themes have
always pervaded neoliberal thinking The book s key argument is that neoliberal thought is constitutively racialized its racial
motifs cannot be extracted from neoliberalism without rendering it theoretically and politically incoherent The book aptly
explores a wide variety of racial constructs through the structure of neoliberal ideology deconstructing the
conceptualizations in the works of landmark thinkers such as Ludwig von Mises Friedrich Hayek Peter Bauer Thomas Sowell

The Rise of Common-Sense Conservatism

Antti Lepistö, 2021-04-20 In the years following the election of Donald Trump a victory that hinged on the votes of white Midwesterners who were both geographically and culturally distant from the media's coastal concentrations there has been a flurry of investigation into the politics of the so called common man The notion that the salt of the earth purity implied by this appellation is best understood by conservative politicians is no recent development though As Antti Lepistö shows in his timely and erudite book the intellectual wellsprings of conservative common sense discourse are both older and more transnational than has been thought In considering the luminaries of American neoconservative thought among them Irving Kristol Gertrude Himmelfarb James Q Wilson and Francis Fukuyama Lepistö argues that the centrality of their conception of the common man accounts for the enduring power and influence of their thought Intriguingly Lepistö locates the roots of this conception in the eighteenth century Scottish Enlightenment revealing how leading neoconservatives weaponized the ideas of Adam Smith Thomas Reid and David Hume to denounce postwar liberal elites educational authorities and social reformers Their reconfiguration of Scottish Enlightenment ideas ultimately gave rise to a defining force in modern conservative politics the common sense of the common man Whether twenty first century politicians who invoke the grievances of the people are conscious of this unusual lineage or not Lepistö explains both the persistence of the trope and the complicity of some conservative thinkers with the Trump regime
