Friedhelm Hillebrand,2010-01-21 Contributions from Finn Trosby Kevin Holley Ian Harris Written to celebrate the 25th anniversary of SMS standardization by the people who produced the standards Short Message Service SMS The Creation of Personal Text Messaging describes the development of the SMS standard and its ongoing evolution The standardization of SMS started in February 1985 as a part of the creation of the second generation digital cellular system GSM and the 25th anniversary of the first work on SMS provides an opportunity to review and understand how this service was developed The book also looks to the future as a large number of new GSM and evolved GSM phones will support SMS as a mass market high availability messaging service a new simple Multimedia Messaging Service MMS suitable for use by everyone and for implementation in every new terminal is proposed One of the only books which covers the complete SMS genesis from concept ideas to standardization of a first technical solution and its evolution to the present day Describes the service concept including the limitation of the message length to 160 characters and explains the rationale behind the concept Based on existing and newly retrieved documentation Concludes that SMS has a long future since most future GSM phones will support SMS as the only messaging service and so an SMS evolution is put forward *Development of Short Message Service Centre (SMSC) Application Gateway of Vehicle Emission Monitoring Information System(VEMIS)* Nurul Sharaz Azmanuddin,2003 The Inside Text R. Harper,L. Palen,A. Taylor,2005-06-27 SMS or Text is one of the most popular forms

of messaging Yet despite its immense popularity SMS has remained unexamined by science Not only that but the commercial organisations who have been forced to offer SMS by a demanding public have had very little idea why it has been successful Indeed they have until very recently planned to replace SMS with other messaging services such as MMS This book is the first to bring together scientific studies into the values that texting provides examining both cultural variation in countries as different as the Philippines and Germany as well as the differences between SMS and other communications channels like Instant Messaging and the traditional letter It presents usability and design research which explores how SMS will evolve and what is likely to be the pattern of person to person messaging in the future In short The Inside Text is a fundamental resource for anyone interested in mobile communications at the start of the 21st Century **Short Message Service**
