

The Mystery of Macy's Money

There are about nine million people in New York City, thought Detective Hanlon. All I have to do is find out who took \$250,000 from the safe at Macy's Department Store.

There was a broken window in the office. The safe door was open. Detective Hanlon looked out the window. Outside on the ground, there were shards of glass. The carpet by the window was clean.

Just then, Charles Taylor, an assistant manager, walked in. Detective Hanlon noticed bandages on Taylor's hands. Taylor pulled the sleeve of his jacket over the bandages.

"I am sorry I wasn't here to meet you, detective. I don't know how this could have happened!" exclaimed Taylor.

"Do you always have this much money in the safe?" asked Hanlon.

"No, we were going to give bonuses to some of our employees," answered Taylor.

"Were you going to get a bonus, Mr. Taylor?" asked Hanlon.

"No, only the sales staff was going to get bonuses. I didn't think that was very fair. But then, my opinion doesn't matter much around here," replied Taylor.

"Who has the combination to the safe?" asked Hanlon.

"Only my supervisor, Harold Stevens, and I," answered Taylor. "Mr. Stevens just left for a vacation in Hawaii."

"I think that you will be going away for a while too, Mr. Taylor, but not to Hawaii," said Hanlon.

Think about it...

Hanlon knows who took the money. Do you?

Storytelling Strategies for Reaching and Teaching Children with Special Needs Sherry Norfolk, Lyn Ford, 2017-11-21. This book supplies stories, essays, lesson plans, and specialized storytelling strategies to help teachers level the playing field for all learners and better serve children with special needs. More than 57 percent of the over 6 million American children with disabilities are in inclusive i.e. general classrooms. Self-contained classrooms serve children whose disabilities are either more severe or disruptive. As much as 20 percent of the children in an inclusive classroom are identified as disabled, with the highest percentage of these having learning disabilities. While most classrooms have at least one child with a disability, teachers often have little or no training in educating and caring for these children. The need for resources that support educators working with children with disabilities or social/emotional difficulties is clear. This book fills this critical need, supplying school and public librarians, classroom and special area teachers, and storytelling teaching artists with storytelling strategies for reaching and teaching children with special needs in inclusive classrooms, self-contained classrooms, and public and school libraries. These full-text stories, essays, and lesson plans from experienced storytelling teaching artists provide educators with a wide range of adaptable storytelling and teaching strategies for specific disabilities and enable storytellers to discover new ways to perform their storytelling magic. The book also offers compelling real-life anecdotes that demonstrate the impact of these strategies in inclusive and self-contained classrooms, presents an introduction to the skills of storytelling, why they are useful, and how to use them, and includes suggested modifications for a wide range of disabilities, as well as detailed resource lists.
