Edward Branigan, Warren Buckland, 2013-12-04 The Routledge Encyclopedia of Film Theory is an international reference work representing the essential ideas and concepts at the centre of film theory from the beginning of the twentieth century to the beginning of the twenty first. When first encountering film theory students are often confronted with a dense interlocking set of texts full of arcane terminology, inexact formulations, sliding definitions and abstract generalities. The Routledge Encyclopedia of Film Theory challenges these first impressions by aiming to make film theory accessible and open to new readers. Edward Branigan and Warren Buckland have commissioned over 50 scholars from around the globe to address the difficult formulations and propositions in each theory by reducing these difficult formulations to straightforward propositions. The result is a highly accessible volume that clearly defines and analyzes step by step many of the fundamental concepts in film theory ranging from familiar concepts such as Apparatus, Gaze, Genre and Identification to less well known and understood but equally important concepts such as Alain Badiou's Inaesthetics, Gilles Deleuze's Time Image and Jean-Luc Nancy's Evidence. The Routledge Encyclopedia of Film Theory is an ideal reference book for undergraduates of film studies as well as graduate students new to the discipline.

Encyclopedia of Film Themes, Settings and Series Richard B. Armstrong, Mary Willems Armstrong, 2015-07-11 The first edition was called the most valuable film reference in several years by Library Journal. The new edition published in hardcover in 2001 includes more than 670 entries. The current work is a paperback reprint of that edition. Each entry contains a mini essay that defines the topic followed by a chronological list of representative films. From the Abominable Snowman to Zorro, this encyclopedia provides film scholars and fans with an easy to use reference for researching film themes or tracking down obscure movies on subjects such as suspended animation, viral epidemics, robots, submarines, reincarnation, ventriloquists and the Olympics. Excellent, said Cult Movies. The volume also contains an extensive list of film characters and series including B movie detectives, Western heroes, made-for-television film series and foreign film heroes and villains.

Space Patrol Jean-Noel Bassior, 2015-05-07 Before Star Trek there was Space Patrol. Science fiction television has its roots in this live action packed series that captured the imagination of Americans from 1950 to 1955 when space travel was just a dream. This book explores the freewheeling spirit of live TV where anything could go wrong before millions of viewers and often did. It spotlights often in personal interviews the risk-taking Space Patrol cast and crew who laid vital groundwork for television today. Included are episode logs for both television and radio shows as well as a complete guide to Space Patrol memorabilia.
