Geraldo, 2011-01-14 A Woman's Guide to the Male Mind is the indirect result of a blog that I wrote in 2005 How Do You Tell If a Guy Fancies You The article was so popular receiving more than 70 replies from women with lots more questions that I launched my web site www.seducemen.co.uk Since then most of the advice I've given in hundreds of published articles was based on my own experiences and those of my friends To write the book however I adopted a more scientific approach I performed a significant amount of research into recent discoveries by anthropologists sociologists psychologists and biochemists on topics ranging from basic sexual attraction to personality type and male female communications strategies It's my belief therefore that A Woman's Guide to the Male Mind features the best of two worlds common sense opinions backed by solid empirical evidence By helping ladies understand the male point of view with regard to sex dating and relationships I hope to eliminate the senseless conflicts that so often erupt between lovers and would be lovers Once you understand a few fundamentals about the male mind and male behaviour you will stop thinking of men as inscrutable blockheads and primitive misfits You will no longer regard them as you would a small nasty child or an alien race Arming yourself with the wisdom in this book you'll increase your odds of finding happiness and harmony in romantic relationships and you will help ensure that this bliss lasts a lifetime By the time a man reaches maturity he has passed through four evolutionary stages in his attitude toward women and relationships It's very important to understand and identify these four stages because it will save you from wasting time on guys who aren't ready for serious romance
