second or third career as an entrepreneur and if you're in your forties, fifties or beyond you will decidedly favor the idea of starting and owning your own business. In fact, fifty-two percent of all small businesses are home based and many of those are started and run by people in their mid-career. So whether you are early in your career or are in mid-career, whether you have ambitions to run a larger business or a very small business and whether you start a business because it's your desire or you're forced to by automation and layoffs, entrepreneurship is more likely than ever to be a part of your future. Let Brian Tracy, one of the world's foremost authorities on the subject, introduce you to *6 Essentials To Start Succeed in Your Own Business* and expose you to the most innovative, current and most importantly, proven ideas on how to become successful. Use your knowledge of *The 6 Essentials* to race ahead of the competition and take advantage of all of the modern options readily available to you and create a business that is successful and sustainable for the long term.

Heart Failure in the Child and Young Adult Joseph Rossano, John Lynn Jefferies, Anthony C Chang, Jeffrey A. Towbin, Robert E Shaddy, 2017-12-05
Heart Failure in the Child and Young Adult: From Bench to Bedside combines multiple etiologies for pediatric heart failure including congenital heart disease, cardiomyopathies, infectious diseases and metabolic abnormalities. This comprehensive resource combines research from multiple contributors with current guidelines to bridge the knowledge gap for the recognition and management of heart failure in children. Coverage begins with the basic science of heart failure, then progresses through diagnosis, management, treatment and surgery, finally concluding with advanced special topics including genetics, self-management and nanomedicine. Provides coverage of the basic science of heart failure, its epidemiology and economic aspects, outpatient and inpatient management and advanced therapies including mechanical circulatory support and heart transplantation. Combines cutting-edge research with current guidelines from the field.
