Pre-paid Toll Processing E-Ticketing System

S. Murgan^{*}

^{*}Assistant Professor, Dept. of ECE, Vidyaa Vikas College of Engineering and Technology, Tiruchengode, India.

Abstract: Nowadays almost all highways toll plazas are manually operated, where an operator collects cash from the driver and provides a receipt. Since this procedure can be slow, we often encounter traffic jams at the toll plazas on busy highways. Automatic process of toll collection will save time, effort, and man power. In this work propose a low cost and efficient technique called Electronic Toll Collection using RFID modules that automatically collects the toll from moving vehicles when they cross the toll plaza. We also assume that an owner maintains a prepaid account, so that toll tax is deducted automatically from the driver's account at toll plaza. If the balance in the owner's account is low or if the vehicle is not equipped with an RP system, the toll gate remains close. In such a case vehicle owner will have to pay the toll tax in cash and collect the receipt. The owner receives an SMS message on his/her mobile about the details of the payments and there is no need for him to stop the vehicle. How many vehicles passing through the toll gate moved in a duration. We can also find out a vehicle how many times passing through the toll gate in a day. Through this process of toll collection will save time, effort and man power.

A Study on Organizational Citizenship Behaviour of Employees in New Generation Private Banks with Special Reference to Madurai District

V. Karthiga Sengottuvel^{*}

^{*}Vidyaa Vikas College of Engineering and Technology, Tiruchengode, India.

Abstract: Antecedents of Organisational Citizenship Behaviour were studied in the banking sector in India. The antecedents of OCB include Altruism, Communitarianism and Civic Virtue in the study. Casual research design was adopted and purposive sampling was used. Data of analysis was middle level managers and employees in private banks. 50 Questionnaires were analysed from different branches to study the relationship of OCB and its impacts on new generation private banking sectors. Results indicated that Civic Virtue explained more variations towards the construct of OCB compared to Communitarianism and Altruism. In the current high competitive environment, where organisations are looking for those which can help them in achieving competitive advantage, OCB may help them. OCB is important for effective functioning of an organisation because its ultimate goal is to make all the employees work towards achieving the organisation goals rather than accomplishing their duties.
