Rebellion in Young Adult Dystopian Fiction Sara K. Day, Miranda A. Green-Barteet, Amy L. Montz, 2016-04-15 Responding to the increasingly powerful presence of dystopian literature for young adults, this volume focuses on novels featuring a female protagonist who contends with societal and governmental threats at the same time that she is navigating the treacherous waters of young adulthood. The contributors relate the liminal nature of the female protagonist to liminality as a unifying feature of dystopian literature for and about young women and cultural expectations of adolescent womanhood. Divided into three sections, the collection investigates cultural assumptions and expectations of adolescent women, considers the various means of resistance and rebellion made available to and explored by female protagonists, and examines how the adolescent female protagonist is situated with respect to the groups and environments that surround her. In a series of thought-provoking essays on a wide range of writers that includes Libba Bray, Scott Westerfeld, Tahereh Mafi, Veronica Roth, Marissa Meyer, Ally Condie, and Suzanne Collins, the collection makes a convincing case for how this rebellious figure interrogates the competing constructions of adolescent womanhood in late twentieth and early twenty-first century culture.

Glimmer of Hope Ryan King, 2012-09-13 Following a nuclear holocaust, Nathan Taylor and his family face grim choices in order to stay alive. Fleeing deadly radiation, plague, and desperate men, Nathan, an army officer, leads his wife and their two teenage sons away from chaos and madness toward his ancestral home in Kentucky. Horrors lie in their path. From the prison struggling to maintain control of its inmates to the desperadoes who enslave anyone who comes their way, even survival may cost Nathan his humanity or that of his sons. Joshua and David, Nathan struggles to keep his family intact but it requires making brutal choices. He wants to protect his sons but knows they now must be deadly and cold at times. Nathan's home has been spared from the worst of the destruction, but a larger conflict over scarce resources erupts. For the survivors to have any chance, they will have to fight, and the desperate journey has transformed young Joshua and David into men called upon to lead and sacrifice. Torn between harsh realities and wanting to hold onto fleeting childhoods, they are often conflicted and angry about the roles thrust upon them. Much will depend on how Nathan and his sons respond to a madman and his military regime seeking to conquer the fledgling community they are helping to build. GLIMMER OF HOPE is an epic tale of one family's endurance and triumph after tomorrow's apocalypse.

Resources in Education ,1998 Russell Lee Mary Jane Appel,2020-11-17 Russell Lee a contemporary of Walker Evans and Dorothea Lange now emerges from the shadows as one of the most influential documentary photographers in American history The most prolific photographer of the Great Depression Russell Lee has never been canonized for his iconic images With this compulsively readable and definitive biography historian and archivist Mary Jane Appel finally uncovers Lee s rebellious life tracing his journey from blue blood beginnings to intrepid years of activism and pioneering creativity through the incredible body of work he left behind Born in the quintessential turn of the century small town of Ottawa Illinois in 1903 Lee grew up in a wealthy family riddled with tragedy He trained in college to become a chemical engineer but was quickly drawn to Greenwich Village where he developed an interest in social change and the arts In 1935 the charismatic bohemian picked up a camera and a year later walked into the office of Roy Stryker head of the Historical Section of the Resettlement Administration later renamed the Farm Security Administration FSA setting in motion a new life trajectory The Historical Section aimed to capture rural poverty and the New Deal programs designed to abolish it But Stryker imagined a much broader pictorial sourcebook for America and no one on his legendary team including Dorothea Lange Walker Evans and Gordon Parks among others would be more dedicated to reaching this goal than Russell Lee As Appel demonstrates Stryker and Lee developed a fascinating symbiotic relationship that resulted in a massive and complex breadth of work Living out of his car from the fall of 1936 to mid 1942 Lee crisscrossed America s back roads more than any photographer of his era During this time he shot 19 000 negatives that were captioned and printed more than twice that of any other FSA photographer He captured arresting images of sweeping dust storms and devastating floods and chronicled the World War II home front and the last gasp of a small town America that was inexorably vanishing all the while focusing prophetically on

issues like segregation and climate change decades before they became national concerns Meticulously weaving previously unseen letters and diaries Appel brilliantly reveals why Lee s profile has remained obscured while his contemporaries became broadly celebrated With more than 100 images spread throughout Russell Lee speaks not only to the complexity of a pioneering documentary photographer s work but to a seminal American moment captured viscerally like never before

Dunnigan, 1996 Beyond being digital James Dunnigan the state department s and CIA s expert advisor on military affairs reveals the truth behind high tech mania First rate the informality and the point of view are reminiscent of the reflective talk of soldiers *Scientific American* *Casting Shadows* Michael J. Smith Sr., 2010-08-05 This is a fictional work that encompasses modern counterterrorism with current terrorist tactics that have been thwarted or investigated by respected counterterrorism agencies These scenarios are linked together with the formation of a special privately owned terrorism task force that is designed to counter the weakening of the United States government and growth of a more sinister radical Islamic faction These all take place in real locations with a cast of characters building as the book progresses The title *Casting Shadows* has multiple meanings first of which is the casting or formation of both groups second it refers to the methods used by these organizations to move forward and lastly it refers to the shadows and images of people burned on buildings after several nuclear explosions *Casting Shadows* is a suspense thriller with law enforcement and military leanings twisting back and forth between sides This story line gets a little more complicated when more sides appear Its not just a good guy meets bad guy book but has many dimensions of good and evil and the perception of either may be different depending on the angle youre witnessing Who are the real bad guys The time line carries the reader through the development of the most sinister plot in the history of mankind Complex and very involved the plot destroys believers and nonbelievers alike The sacrifice of their own people provides a screen that ultimately weakens their objective Islamic radical factions from around the world bond together to create the ultimate union this union called Al Infitar is attempting to finish the jihad their forefathers have started With just a small force with perfect resolve funds and opportunity they attempt to complete their jihad Total Islam is their goal and total destruction is their tool Acquiring nukes for the black market the brothers embark on a slow methodical plan to destroy the Western world as we know it Is this book really fiction Your call The techniques are real The targets are real the motivation is real and the desire is real Even more frightening than that the plots are real and are being attempted as you read this Islamic radicals have stepped up attempts to destroy our way of life The inner jihad they seek or the total acceptance of Allah by Muslims have now become an outward call for war against

Western civilization and all non Muslims Jihad is being called in mosques throughout the world and groups are forming for the final push The Koran calls all Muslims to jihad which by definition is the inner struggle of an individual to fight evil the sort of yin and yang of Muslims The radical leaders interpret this differently and call for the death of any nonbeliever Who are they speaking of Who are the nonbelievers As you read this book pay particular attention to the dates because in the beginning the planning stages cover several years and locations This is typical of radical plots and the formation of cells by their recruiters takes time and large sums of money What allows the fertile ground to produce such plots to blossom is the weakened state of the United States and European governments This weakness will always be exploited as the enemy will be constantly vigilant for such cracks in the armor Enjoy this book the way it was intended not to terrify but to enlighten and make these attempts public Yes they can happen Yes they are trying And yes we can stop them So is this really a fictional book or a book that hedges on insanity Is this book a recipe for disaster or too far fetched to believe Read it and make your own decision This book like real life will continue The plots will always be there and the desire will continue The will to survive is stronger than humans can comprehend For a nation to survive it sometimes takes continuous vigilance and strength When one or the other is lacking then evil creeps in to steal what it can After 9 11 **Garden Suburbs of**

Tomorrow? Martin Crookston,2013-12-04 Named one of the Top 10 books about council housing the Guardian online Faced with acute housing shortages the idea of new garden cities and suburbs is on the UK planning agenda once again but what of the garden suburbs that already exist Over the first six decades of the twentieth century councils across Britain created a new and optimistic form of housing the cottage estates of corporation suburbia By the early 1960s these estates provided homes with gardens for some 3 million mainly working class households It was a mammoth achievement But because of what then happened to council housing over the later years of the century this is not very often appreciated In Garden Suburbs of Tomorrow Martin Crookston suggests that making the most of the assets which this housing offers is a positive story it can be positive for housing policy for councils and their place making endeavours and for the residents of the estates This is especially important when all housing market and development options are so constrained and likely to remain so for the next decade or more Following an examination of what the estates of corporation suburbia are and what they are like there follow chapters on specific examples from different parts of the country on how they are affected by the workings of the housing market and then not unconnectedly on how attitudes to this socially built stock have evolved Then the final chapters try to draw out the potentials and to suggest what future we might look for in corporation suburbia in the twenty first century

Educating Tomorrow Angela Thody, 2000 It is well accepted that education needs to be equalised along gender lines However until the management of education is also gender sensitive that content cannot expect to be effectively communicated This is the premise of this groundbreaking book It addresses gender issues and management practices in education by critically examining both successes and failures drawn from a number of African countries It proposes ways of improving the management of education to focus on women who have hitherto been left out of the

mainstream of educational and training practices It throws a uniquely African light on an issue that goes to the heart of the process of democratisation In order to empower the girl child in the new South Africa and in Africa the patriarchal and parochial structures that exist within the African educational paradigm need to be broken down and replaced This would address problems such as why women are discouraged from certain fields of studies like sciences the effect that interactions in learning situations can have on the achievement and attainment of female students and the critical necessity of educating and training girls in rural Africa The book speaks to the heart of the administrative processes within the education framework and shows how the way classes are structured or materials selected needs to be adapted in order to correct the present imbalance It was created and developed with the aim of seeking out the best education management practices finding common analyses from these and using them to develop guidelines for future education management **Shaping**

Tomorrow's World Elke Seefried, 2024-05-01 *Shaping Tomorrow's World* tells the crucial story of how futures studies developed in West Germany Europe the US and within global futures networks from the 1940s to the 1980s It charts the emergence of different approaches and thought styles within the field ranging from Cold War defense intellectuals such as Herman Kahn to critical peace activists like Robert Jungk Engaging with the challenges of the looming nuclear war the changing phases of the Cold War 1968 and the growing importance of both the Global South and environmentalism this book argues that futures scholars actively contributed to these processes of change This multiple award winning study combines national and transnational perspectives to present a unique history of envisioning forecasting and shaping the future
