2. Would anyone benefit from the launch and retrieval of satellites?	They would surely produce satellites that were better than those the Soviets already had	They were worried about a loss of control over satellites launched by U.S. satellites that the Soviets would control through planned action the removal of American satellites from orbit
3. Would anyone disagree with this?	Not really	Some might disagree with the prohibition on launching
4. Would the launch policy make sense without launch?	Yes, the prohibition on launching would be a sensible restriction	Yes, because people were concerned we would not take a responsible line

2. Suppose the agreement simply set up the program, without

the other provisions mentioned below.

3. Why did the Americans want to launch satellites?

4. What was the U.S. government's attitude toward the launch?
