

The Cold War Comes Home

Defini: 1. **HUAC** – The House Committee on Un-American Activities was an investigating committee which looked at anti-American propaganda, specifically in Hollywood.

2. **Blacklist** – It was the practice of denying employment to screenwriters, actors, directors, including who were in Hollywood during the mid-20th century. This was done to the idea that they were somehow allied or connected to the USSR.

Due packed Disloyalty	What were they accused of?	How were they affected by the accusations?	Do the accusations seem to have been fair? Explain.
The Hollywood Ten	They were accused of giving communist propaganda in films.	Some were sent to prison because they refused to testify and others were blacklisted.	No, they were not fair. Many pre-entitled or notable Hollywood films were made after the USSR was an ally of the U.S. in WWII.
Alger Hiss	He was accused of spying for the USSR.	He was convicted of perjury and was imprisoned by Nixon.	I think they were fair to convict. He was most likely a communist, but I hope he was pardoned for his conviction.

Congressional Record United States. Congress, 2000 War in Europe? Thibault Muzergues, 2022-04-19 In this highly provocative and documented book Thibault Muzergues describes how war in Europe is now more likely than it has been for at least the past 30 years how it might come back to Europe and what Europeans can do to avoid getting drawn again in fratricide conflicts Many consider Europe a continent of peace with NATO guaranteeing its security and the EU providing the political glue for a Europe Whole and Free But what if this was not the case anymore What if after a decade of crisis today's Europe was much more fragile than we thought The author challenges our assumptions about peace in Europe and forces us to face the realities of a world that has become much more dangerous Far from being apocalyptic this book serves as an advance warning to the dangers both internal and external that are now closing in on Europe and suggests solutions to avoid them This book will be key reading for those interested in European politics and history the European Union security and strategic studies and more broadly to current affairs and international relations

History Gr11 L/b, *Agonies of Empire* Michael Cox, 2022-03-08 The defeat of Donald Trump in November 2020 followed by the attack on the US Congress on 6th January 2021 represented a tipping point moment in the history of the American republic Divided at home and facing a world sceptical of American claims to be the indispensable nation in world politics it is clear that the next few years will be decisive ones for the United States But how did the US which was riding high only 30 years ago arrive at this critical point And will it lead to the fall of what many would claim has been one of the most successful empires of modern times In this volume Michael Cox a leading scholar of American foreign policy outlines the ways in which five very different American Presidents Clinton Bush Obama Trump and now Biden have addressed the complex legacies left them by their predecessors while dealing with the longer term problems of running an empire under increasing stress In so doing he sets out a framework for thinking critically about US foreign policy since the end of the Cold War without ever losing sight of the biggest question of all can America continue to shape world affairs or is it now facing long term decline

Farmer's Advocate and Home Journal, 1919 **Signal**, 2007 **Nixon's Economy**

Allen J. Matusow, 1998 Historian Allen J Matusow now presents the first comprehensive history of Nixon's political economy. He depicts a president who disliked the subject but was forced to pay attention or lose his dream of effecting a historic realignment of the political parties in America. The study derives its authority from extensive archival research in Nixon's presidential papers including notes by Haldeman and Ehrlichman of crucial conversations in the Oval Office. Matusow shows the poverty of contemporary economic theory, Nixon's willingness to sacrifice the world economy for his domestic political purposes and his desperate attempts to find something anything that might work. Lurching from one set of policies to another, Matusow argues Nixon achieved only illusory successes that ultimately brought on a decade of economic disaster.
