Fischel, 2016-05-15 Sex and Harm in the Age of Consent cautions against the adoption of consent as our primary determinant of sexual freedom For Joseph J Fischel consent is not necessarily always ethically sound It is he argues a moralized fiction and it churns out figures for its normativity the predatory sex offender and the innocent child Examining the representation of consent in U S law and media culture Fischel contends that the figures of the sex offender and the child are consent's alibi its negative space enabling fictions that allow consent to do the work cut out for it under late modern sexual politics Engaging legal queer feminist and political theory case law and statutory law and media representations Fischel proposes that we change our adjudicative terms from innocence consent and predation to vulnerability sexual autonomy and peremption which he defines as the uncontrolled disqualification of possibility Such a shift in theory law and life would be less damaging for young people more responsive to sexual violence and better for sex **Resources in Education**, 2001-04

**Not a Choice, Not a Job** JANICE G. RAYMOND, 2013-07-15 A generation ago most people did not know how ubiquitous and grave human trafficking was Now many people agree that the \$35.7 billion business is an appalling violation of human rights But when confronted with prostitution many people experience an odd disconnect because prostitution is shrouded in myths among them the claims that prostitution is inevitable and prostitution is a job or service like any other In Not a Choice Not a Job Janice Raymond challenges both the myths and their perpetrators Raymond demonstrates that prostitution is not sex but sexual exploitation and that legalizing and decriminalizing the system of prostitution as opposed to the prostituted women promotes sex trafficking expands the sex industry and invites organized crime Specifically Raymond exposes how legalized prostitution in the Netherlands Germany Australia and Nevada worsens crime and endangers women In contrast she reveals when governments work to prevent the demand for prostitution by prosecuting pimps brothels and prostitution users as in Norway Sweden and Iceland trafficking does not increase women are better protected and fewer men buy sex Raymond expands the boundaries of scholarship in women's studies making this book indispensable to human rights
