A Shot in the Dark: A History of the U.S. Army Asymmetric Warfare Group Paul J. Cook, 2024-05-14 This book presents the U S Army Asymmetric Warfare Group AWG as an example of successful change by the Army in wartime It argues that creating the AWG required senior leaders to create a vision differing from the Army s self conceptualization change bureaucratic processes to turn the vision into an actual unit and then place the new unit in the hands of uniquely qualified leaders to build and sustain it In doing this it considers the forces influencing change within the Army and argues the two most significant

are its self conceptualization and institutional bureaucracy The work explores three major subject areas that provide historical context The first is the Army s institutional history from the early 1950s through 2001 This period begins with the Army seeking to validate its place in America s national security strategy and ends with the Army trying to chart a path into the post Cold War future The Army s history is largely one of asymmetric warfare The work thus examines several campaigns that offered lessons for subsequent wars Some lessons the Army took to heart others it ignored As the AWG was a direct outgrowth of the failures and frustrations the Army experienced in Afghanistan and Iraq the book examines these campaigns and identifies the specific problems that led senior Army leaders to create the AWG Finally the work chronicles the AWG s creation in 2006 growth and re assignment from the Army staff to a fully fledged organization subordinate to the U S Army Training and Doctrine Command in 2011 to its deactivation This action resulted not from the unit s failure to adapt to a post insurgency Army focusing on modernization Rather it resulted from the Army failing to realize that while the AWG was a product of counterinsurgency it provided the capability to support the Army during a period of great strategic and institutional uncertainty

Department of Defense Authorization for Appropriations for Fiscal Year 2014 and the Future Years Defense Program United States. Congress. Senate. Committee on Armed Services,2014 *US Foreign Policy in a Challenging World* Marco Clementi,Matteo Dian,Barbara Pisciotta,2017-07-18 This book examines how the US is dealing with the challenge of reconciling its global interests with regional dynamics and how it is able to produce and sustain order at the system level and within regional subsystems The book comprises four parts the first of which addresses global issues such as nonproliferation trade and freedom of the seas US policies in these areas are carefully analyzed considering whether and how they have been differently implemented at the regional level The remaining parts of the book focus on the US posture toward specific regions Europe the Middle East and East Asia The policies adopted by the US to confront the most relevant challenges in each region are identified and the ways in which policies in a specific region influence or are influenced by challenges in another region are explored The book is a rich source of knowledge on the nature of the balance that the US has pursued between global and regional interests It will be of much interest to scholars to practitioners to postgraduate PhD students of international relations theory and American foreign policy and to all with an interest in the ability of the US to produce international order

Human Terrain System Christopher J. Sims,2018-04-19 To avoid the footpaths which may have been mined with improvised explosive devices IEDs Ryan Evans a U S federal civilian was walking across a wheat field in Babaji Helmand Province in the spring of 2011 Evans was attached to the Royal Highland Fusiliers 2 Scots C Company a heavy infantry patrol tasked with providing security in the vicinity Begun 2 years earlier the Helmand Food Zone Program was a form of development intervention which offered subsidies seed and fertilizers to farmers who replaced lucrative opium cultivation from poppies with growing and harvesting wheat and vegetable crops Babaji had been in the control of insurgents until a few months earlier and had not received any assistance from the program during the

previous year consequently there were tensions between the community and British forces As Evans and the patrol emerged from the field an Afghan man sitting nearby clearly irate shouted in Pashto that the British soldiers had wanted the farmer to grow wheat instead of poppy and then the same British soldiers walked through their fields At the immediate level the encounter demonstrated the direct link between conflict food security and local trade but conflict has many interrelated and mutual dependencies such that the anecdote is instructive on myriad broader milieus Where for example is the tipping point that makes a civilian value creating an expression of discontent to a heavily armed patrol above his immediate physical security Do livelihoods and cultures affect military strategies Are there interdependencies between insurgencies societies and economies Does the language of war require a sociological grammar in order to be understood Armed conflict is a human enterprise such that by extension understanding of the human dimension in a given area of operations should be thought integral to planning successful operations *Professional Journal of the United States Army*, 2016

Nance, 2008-04-14 Effective counterterrorism requires a non prejudicial understanding of terrorist motives and methods Security professionals need to identify who terrorists might be recognize pre incident indicators of terrorist activity and competently analyze intelligence information Unfortunately most terrorist education comes in short sketchy briefings *The Engineer*, 2009

Improvised Explosive Devices James Revill, 2016-07-15 This book begins with an account of the evolution of improvised explosive devices using a number of micro case studies to explore how and why actors have initiated IED campaigns how new and old technologies and expertise have been exploited and how ethical barriers to IED development and deployment have been dealt with It proceeds to bring the evidence from the case studies together to identify themes and trends in IED development before looking at what can realistically be done to mitigate the threat of IEDs in the new wars of the twenty first century The book suggests that the advance and availability of a combination of technological factors in conjunction with changes in the nature of contemporary conflicts have led to the emergence of IEDs

as the paradigmatic weapons of new wars However their prevalence in contemporary and future conflicts is not inevitable but rather depends on the willingness of multiple sets of actors at different levels to build a web of preventative measures to mitigate if not eradicate IED development and deployment **Geospatial Abduction** Paulo Shakarian,V.S.
