to pay high salaries and the most costly wineries provided they are also practical would be a good investment for him We have thousands perhaps the large majority of our wine growers however who are comparatively poor men many of whom have to plant their vineyards nay even clear the land for them with their own hands make their first wine in a wooden shanty with a rough lever press and work their way up by slow degrees to that competence which they hope to gain by the sweat of their brow About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Bio Introduction According to the ancient Greeks it was a Demi God Dionysius who taught them the pleasures of making wine  
and drinking it No wonder he was always shown with grapevine leaves around his head The Romans called him Bacchus and  
also Eleutherios which meant the Liberator The idea was those taking part in celebrating his existence were free from care  
and worry That was because they drank freely of the fruit of the grape during their Bacchanals A Greek friend told me that  
according to Greek legend Dionysius was supposed to have come to India and Alexander the great during his conquest  
entered an Eastern city called Nysa of which the inhabitants told him of its raising by this demi God He taught them practices  
which were incorporated in their own social rituals and festivals Ah well that is a good myth but then wine was definitely not  
unknown in the East It was one of the first gourmet pleasures discovered and appreciated for millenniums So if this demigod  
came to the Indian subcontinent he would have been fed Madira or Soma Rasa the ancient and traditional drink of the gods  
The names Dennis Denise and Dion are derivatives from this original Greek name So for all of us who would like to raise a  
toast to the gods in a glass of homemade wine this book is going to teach you how you can grow vines very successfully in  
sunny atmospheres After that it is going to teach you how to make wines for home consumption If you look at wine making  
practices which are being practiced today it is a very scary and complicated process This is because of our usage of complex  
and complicated tools The practices I am going to teach you have been in use for centuries You are not going to be buying  
expensive tools You are going to be making wine the traditional way     GRAPE CULTURE & WINE-MAKING IN George
