Raising a Cautionary Flag Todd A. DeMitchell,Richard Fossey,Terri A. DeMitchell,2022-10-28 Nearly 50 years ago a California court heard a complaint from a recent high school graduate who alleged that he could not read at a level that would allow him to apply for let alone hold a meaningful job He asserted that the public school district was negligent and that his prospects for a productive life were diminished by their negligence The court disagreed and educational malpractice was cast outside the schoolhouse gate and an educational malpractice wall was erected In sum both federal and state courts

have constructed a sturdy wall against the recognition of educational malpractice lawsuits. However, recent advances in research on instructional statistical analyses that some have argued can identify substandard teaching may have cracked the wall. Thus, confluence of events may lead to demolishing the educational malpractice wall constructed over the past half century. The authors of *Raising a Cautionary Flag: Educational Malpractice and the Professional Teacher* explore the judicial reticence to recognize educational malpractice as a viable tort of negligence. They review the concept of what constitutes a professional what is malpractice and how is it related to the professional malpractice of physicians and attorneys and the potential responses to education malpractice. They conclude by raising a cautionary flag about breaching the judicial wall.

Piety, 2013-05-19 EDUCATION Testing Measurement **Using Data to Improve Teacher Education** Charles Peck, Kristen Cuthrell, Désirée H. Pointer Mace, Tine Sloan, Diana Lys, 2021. This book offers concrete examples of how data can be used by faculty staff and program leaders to improve their collective work as teacher educators. Strong external accountability mandates often lead to tensions that undermine local morale and motivation. This volume focuses on the practical work of navigating these tensions so that valuable programmatic change can happen. It describes policies and practices drawn from a study of high data use teacher education programs from around the country that have strategically engaged the challenges of learning to use data for program improvement. Readers will see how the data use work carried out in these programs strengthened local program identity and coherence. Representing a collaborative effort between researchers and practitioners, this volume presents lessons learned to assist teacher educators who are engaged daily with the challenges of making data useful and used in their programs. Book Features Examples of how tensions between external mandates for accountability and program improvement can be navigated in ways that are grounded in local program values. Detailed case study portraits of individual programs that offer a full and action-oriented sense of data use work. Strategies for ensuring that data systems are

responsive to multiple stakeholders such as faculty administrators students and policymakers A diversity of perspectives and experiences from small liberal arts colleges large teacher preparation institutions and research intensive universities
