The Social and Cultural Construction of Risk B.B. Johnson,V.T. Covello,2012-12-06 The Social and Cultural Construction of Risk Issues Methods and Case Studies Vincent T Covello and Branden B Johnson Risks to health safety and the environment abound in the world and people cope as best they can But before action can be taken to control reduce or eliminate these risks decisions must be made about which risks are important and which risks can safely be ignored The challenge for decision makers is that consensus on these matters is often lacking Risks believed by some individuals and groups to be tolerable or acceptable such as the risks of nuclear power or industrial pollutants are intolerable and unacceptable to others This book addresses this issue by exploring how particular technological risks come to be selected for societal attention and action Each section of the volume examines from a different perspective how individuals groups communities and societies decide what is risky how risky it is and what should be done The writing of this book was inspired by another book Risk and Culture An Essay on the Selection of Technological and Environmental Dangers Published in 1982 and written by two distinguished scholars Mary Douglas a British social anthropologist and Aaron Wildavsky an American political scientist the book received wide critical attention and offered several provocative ideas on the nature of risk selection perception and acceptance

Accounting, Accountants

and Accountability Norman Macintosh, 2013-04-03 In the business world recent years have seen a growing acknowledgement of the value of intangible assets rather than physical assets This has precipitated a crisis in the accounting industry the accounting representations relied upon for years can no longer be taken for granted Here Norman Macintosh argues that we now need to understand accounting in a different manner Offering several different ways of looking at accounting and accountants he draws upon the work of eminent thinkers such as Barthes Baudrillard Derrida Foucault Lyotard and Bahktin In doing this he develops revolutionary insights into the nature of accounting pioneering the introduction of contemporary poststructuralist ideas into accounting theory and practice With a wide range of examples and case studies and now available in paperback for the first time this revolutionary new work will be essential reading for academic and professional accountants along with all those with an interest in the future of accounting
