Ss Question Third Term Civic Education:

Social Studies Education in South and South East Asian Contexts Kerry J Kennedy, 2021-07-22 The education of young people is context bound This edited volume explores the contexts that characterise South and South East Asia and their influence on social studies education There is not a single context across this broad geographical expanse rather different religions different political systems and different values exert influences that create distinctive programmes that characterise different countries Yet there are also commonalities such as the post colonial nature of most of the countries portrayed in this book determined efforts at establishing new national communities and multiple value systems that lead to distinctive local priorities There are also voices of resistance in these chapters recognising the realities of local contexts but also recognising the need for change Social studies education in these contexts may well be descended from its origins in North America but in South and South Asian contexts it has taken on new purposes new forms and new values Education researchers policymakers and postgraduate students in comparative education will find the volume useful in its exploration and comparison of the social studies curricular and reforms that shaped them Civic Education and Youth Political Participation ,2009-01-01 Why does it appear that many young people are disengaging from democracy and political participation For many governments politicians academics social commentators and researchers this is a serious and challenging problem Consequently widespread interest exists on how to engage young people in politics and democracy Civic education has re emerged as a possible answer to this question though not necessarily in the form in which it may be currently known This book examines research into issues about the engagement of young people in politics and democracy and examines research on civic education applications and programs which may address concerns about youth political participation Murray Print and Henry Milner are professors from the University of Sydney and the Universite de Montreal respectively They have brought together a group of leading researchers exploring the relationship between political participation and civic education to examine this relationship in greater depth *Resources in Education* ,2001-04

Evaluating Civic Youth Work Ross VeLure Roholt, Michael Baizerman, 2018-06-26 Most youth civic engagement evaluation studies fail to reach beyond specific audiences thereby hindering the diffusion of evaluation practice wisdom around effective methods to evaluate complex social innovations This book therefore provides multiple case studies of youth civic engagement evaluation designs and straightforward guidance for designing youth civic engagement evaluations **The Rise and Fall of Civic Education** Michael Learn, 2024-09-16 Social studies is a field in crisis The crisis stems from failure to establish the very foundation of social studies purpose in public education civic education Social studies advocates have never put forth a coherent method for teaching civic education because policymakers and the public have been unable to agree upon a general definition of civic education This issue has disrupted the field since the early days As educators sought to include civic education within public schools as a dedicated field social studies evolved into a blending of history social sciences and civic

education Social studies evolution never resolved the differences between the three with each discipline striving to control the narrative Instead of creating a unified field the disciplines devalued social studies and thus any discipline associated with it The Rise and Fall of Civic Education The Battle for Social Studies in a Shifting Historical Landscape investigates the changing definitions and purposes ascribed to social studies in the United States through time This result is viewed through the rising tensions from culture wars as America s divisive politics fight to control the narrative of the disciplines within social studies Research in Education ,1974 **Social Studies for the Twenty-First Century** Jack Zevin,2015-01-09 Now in its 4th edition this popular text offers practical interesting exciting ways to teach social studies and a multitude of instructional and professional resources for teachers Theory curriculum methods and assessment are woven into a comprehensive model for setting objectives planning lessons units and courses choosing classroom strategies and constructing tests for some of the field s most popular and enduring programs The reflective and integrative framework emphasizes building imagination insight and critical thinking into everyday classrooms encourages problem solving attitudes and behavior and provokes analysis reflection and debate The text includes separate chapters on teaching each of the major areas of the social studies curriculum Throughout the text all aspects of curriculum and instruction are viewed from a tripartite perspective that divides social studies instruction into didactic factual reflective analytical and affective judgmental components These three components are seen as supporting one another building the groundwork for taking stands on issues past and present At the center is the author s belief that the heart and soul of social studies instruction perhaps all teaching lies in stimulating the production of ideas looking at knowledge from others viewpoints and formulating for oneself a set of goals values and beliefs that can be explained and justified in open discussion New in the Fourth Edition Clear links to the The National Council for the Social Studies College Career and Civic Life C3 Framework for Social Studies State Standards Attention to impact of high stakes testing Common Core State Standards and related ongoing developments Expanded and critical review of the use of internet web and PowerPoint technologies Coverage of how to incorporate the many social science humanities and STEM fields to enrich the social studies Updates and revisions throughout including new research reports reflecting current findings new examples more media and materials resources particularly digital resources new and updated pedagogical features Companion Website new for this edition Pedagogy, Politics and Philosophy of Peace Carmel Borg,Michael Grech,2017-02-23 In an age where official and sponsored violence are becoming normalised and conceived of as legitimate tools of peace keeping a number of leading academics and activists represented in Pedagogy Politics and Philosophy of Peace interrogate and resist the intensification of the militarisation of civil life and of international relations Coming from different areas of study the contributors to this volume discuss peace and critical peace education from a range of perspectives The nature of peace myths related to peace the logistics of peace and peacemaking as well as the relation of peace and pedagogy in the broadest meaning of the term constitute the main themes of the book The common thread that

binds the chapters together is the distinction between genuine authentic and false peace and the importance of critical reflection on actions that contribute to genuine peace

Citizenship Education in Asia and the Pacific W.O. Lee, David L. Grossman, Kerry J. Kennedy, Gregory P. Fairbrother, 2013-11-11 It is a great pleasure to present this book edited by a distinguished team at the Hong Kong Institute of Education and with excellent contributors from nine countries in the region and beyond The book is a truly comparative work which significantly advances conceptual understanding The comparisons undertaken are at many levels and with different units for analysis One chapter undertakes comparison in two cities Hong Kong and Guangzhou three chapters make comparisons between two countries South Korea and Singapore Solomon Islands and Vanuatu South Korea and China and five chapters undertake comparisons across the whole region Other on individual countries or in one case on a single school In addition chapters focus several chapters examine the attitudes and roles played by individuals and groups within societies The book is thus an admirable example of the vitality of the field of comparative education in selecting different units for analysis and in examination of issues from diverse angles Within the book moreover readers will find a fascinating array of settings and environments On the one hand for example is Japan with its relatively homogenous culture a population of 126 million and a strong national identity based on language and history On the other hand is Solomon Islands which has a population of just 400 000 scattered over 1 000 islands approximately 90 indigenous languages and major social problems arising from cultural clashes economic forces political dynamics and legacies of colonialism

Riccards,1973 **Validity of Educational Assessments in Chile and Latin America** Jorge Manzi,María Rosa

García,Sandy Taut,2021-09-11 This edited volume presents a systematic analysis of conceptual methodological and applied aspects related to the validation of educational tests used in Latin American countries Inspired by international standards on educational measurement and evaluation this book illustrates efforts that have been made in several countries to validate different types of educational assessments including student learning assessments measurements of non cognitive aspects in students teacher evaluations and tests for certification and selection It gathers the experience of validity studies from the main international assessments in Latin America PISA TIMSS ERCE and ICCS Additionally it shows the challenges that must be taken into account when evaluations are used to compare countries groups or trends of achievement over time The book builds on the premise that measurements in the educational field should not be used if there are no studies that support the validity of the interpretation of their scores or the use made of such tests It shows that despite the recognition given to validity relatively few educational measurement assessments have accumulated enough evidence to support their interpretation and use In doing so this volume increases awareness about the relevance of validity especially when assessments are key component of educational policies Political Science in History James F.
