Excerpt from First Lessons in Geography On the Plan of Object Teaching The plan of this little work is such that the subject is presented in the most simple form It treats of general features such as the locality and description of Continents Countries States Rivers Mountains thereby giving a greater prominence to the general divisions of land and water The plan of Object Teaching by which the mind receives impressions through the medium of the eye is here so combined with the Map Exercises that a child just able to read is at once interested and instructed About the Publisher
