Dr. Shashi bala 4. Dr BS Dabral, PREFACE Yoga has always been more than a collection of postures breathing techniques or meditation practices It is a lived experience a way of aligning the breath the body and the being into harmony with life itself In today's fast paced world many approach yoga either as a physical discipline for fitness or as a quick path to relaxation Yet beneath these surface benefits lies a timeless science of self

awareness and transformation carefully preserved and passed down through generations This book Breath Body being A Holistic Guide to Yogic Practice is born from the recognition that yoga must be understood in its wholeness Each chapter is designed as a step along a journey where the individual gradually deepens awareness of subtle energies ethical foundations therapeutic possibilities and the integration of yoga into daily life We begin with the breath the bridge between the physical body and the inner world exploring its role as the foundation of prana the vital life force From there we honor the body as a sacred vessel uncovering alignment principles that respect both safety and inner balance Ethical guidance through the yamas and niyamas offers a compass for living while explorations of stillness reveal the quiet intelligence of the nervous system and fascia As the journey unfolds we turn to sequencing mudra bandha and mantra as gateways to subtle power and onward to the energetic pathways of nadis and chakras that expand our inner maps of awareness Dedicated chapters on pranayama meditation and Ayurvedic rhythms highlight the importance of balance resilience and integration The book also emphasizes

Why She is Worshipped Why She is Tortured** Kalptaru

Anil S Thakkar, 2025-08-30 Appeal to the Youth of India and the World You Are Not Just Getting Married you are Entering the Sacred Laboratory of Creation To the young men and women stepping into marriage pause and reflect What if the union you enter is not just a social contract or personal dream but a mirror of the very process through which stars are born Our ancestors were not just priests and poets they were cosmologists of the soul They saw that just as the Earth was molded by the fire and form of the Sun a woman's body mind and emotions are shaped by the quality of the union she enters into The water molecules within a man carrying the sacred Y chromosome interact with her body not only physically but energetically and emotionally The responsibility of a man is not just to love but to cultivate with thought with touch with presence A woman in turn responds not just with affection but by becoming And when children are born their very birth carries the memory of the cosmos wrapped in a subtle energetic shell If we are not aware we carry those shells into adulthood into relationships into the way we touch and are touched This is not superstition This is science beyond instruments the kind seen by stillness and lived by sages So to all youth enter marriage not blindly but sacredly You are building lineage shaping souls
