Schmitz, 2009-09-15 Despite its avowed commitment to liberalism and democracy internationally the United States has frequently chosen to back repressive or authoritarian regimes in parts of the world In this comprehensive examination of American support of right

wing dictatorships David Schmitz challenges the contention that the democratic impulse has consistently motivated U S foreign policy Compelled by a persistent concern for order and influenced by a paternalistic racism that characterized non Western peoples as vulnerable to radical ideas U S policymakers viewed authoritarian regimes as the only vehicles for maintaining political stability and encouraging economic growth in nations such as Nicaragua and Iran Schmitz argues Expediency overcame ideology he says and the United States gained useful albeit brutal and corrupt allies who supported American policies and provided a favorable atmosphere for U S trade But such policy was not without its critics and did not remain static Schmitz notes Instead its influence waxed and waned over the course of five decades until the U S interventions in Vietnam marked its culmination *Congressional Record* United States. Congress,1941 *Summary of World Broadcasts* British Broadcasting Corporation. Monitoring Service,1980 *Roosevelt and the Munich Crisis* Barbara Reardon Farnham,2021-03-09 Franklin Roosevelt s intentions during the three years between Munich and Pearl Harbor have been a source of controversy among historians for decades Barbara Farnham offers both a theory of how the domestic political context affects foreign policy decisions in general and a fresh interpretation of FDR s post Munich policies based on the insights that the theory provides Between 1936 and 1938 Roosevelt searched for ways to influence the deteriorating international situation When Hitler s behavior during the Munich crisis showed him to be incorrigibly aggressive FDR settled on aiding the democracies a course to which he adhered until America s entry into the war This policy attracted him because it allowed him to deal with a serious problem the conflict between the need to stop Hitler and the domestic imperative to avoid any risk of American involvement in a war Because existing theoretical approaches to value conflict ignore the influence of political factors on decision making they offer little help in explaining Roosevelt s behavior As an alternative this book develops a political approach to decision making which focuses on the impact that awareness of the imperatives of the political context can have on decision making processes and through them policy outcomes It suggests that in the face of a clash of central values decision makers who are aware of the demands of the political context are likely to be reluctant to make trade offs seeking instead a solution that gives some measure of satisfaction to all the values implicated in the decision

Debating War David Lorenzo,2015-08-14 What arguments have critics of American wars and interventions put forward and what arguments do they currently employ Thomas Jefferson Henry Thoreau John Calhoun the Anti Imperialist League Herbert Hoover Charles Lindbergh Martin Luther King Jr and Ron Paul among others have criticized proposals to intervene in other countries enter wars acquire foreign territory and engage in a forward defense posture Despite cogent objections they have also generally lost the argument Why do they lose This book provides answers to these questions through a survey of oppositional arguments over time augmented by the views of contemporary critics including those of Ron Paul Chalmers Johnson and Noam Chomsky Author David J Lorenzo demonstrates how and why a significant number of arguments are dismissed as irrelevant unpatriotic overly pessimistic or radically out of the mainstream Other lines of reasoning might provide a compelling critique of wars and interventions from a wide variety of perspectives and still lose Evaluating oppositional arguments in detail allows the reader to understand problems likely to be faced in the context of policy discussions to grasp important political differences and the potential for alliances among critics and ultimately to influence decision making and America s place in the international power structure

Chaplin in the Sound Era Eric L. Flom, 2015-07-11 Charles Chaplin's sound films have often been overlooked by historians despite the fact that in these films the essential character of Chaplin more overtly asserted itself in his screen images than in his earlier silent work Each of Chaplin's seven sound films *City Lights* 1931 *Modern Times* 1936 *The Great Dictator* 1940 *Monsieur Verdoux* 1947 *Limelight* 1952 *A King in New York* 1957 and *A Countess from Hong Kong* 1967 is covered in a chapter length essay here The comedian's inspiration for the film is given along with a narrative that describes the film and offers details on behind the scenes activities There is also a full discussion of the movie's themes and contemporary critical reaction to it
