Hamas, Popular Support and War in the Middle East Richard Davis, 2016-02-05 This book offers a new understanding of the nature of power seeking insurgent groups by empirically examining the use of violence by Hamas in the Palestinian Israeli Conflict Though Hamas has learned to ride the tides of popular support it remains suspended between its quest to achieve the values of its ardent supporters reclamation of land through force and the desire to grow popular support This tension is reflected in how and when the group exercises violent resistance The theoretical framework applied in this volume provides a simple construct to understand the dynamics that result in use and non use of violence under changing environmental conditions by Hamas but could be applied more broadly to other power seeking insurgent groups including ISIL The book weaves together the dynamics between violent actions and internal and external influences on Hamas including expressed values of the group Palestinian popular support measures leaders personalities and innovation weapons and tactics Israeli influence and targeted killings peace processes and conflicts in Gaza Syria Iraq and Egypt With newly assembled datasets on Hamas violent acts and public statements Israeli Targeted Killings historical measures of popular support and extensive field interviews the book offers a fresh perspective on insurgent group violence by demonstrating under what conditions the group exercises violence or refrains from doing so This book will be of much interest to both policy makers and students of the Arab Israeli conflict political violence Middle Eastern politics security studies and international relations in general

English Ministry Crisis in Chinese Canadian Churches Matthew Richard Sheldon Todd, 2015-03-26 In this book Dr Matthew Todd looks into the anecdotal reporting of high numbers of Canadian born Chinese leaving Western Canadian Chinese churches what is termed the silent exodus Some of the fastest growing Canadian churches are Chinese yet reportedly the highest dropout rates are among Chinese and Asian church adult ministries This book recommends solutions towards the retention of Canadian born Chinese adults in Chinese bicultural churches through empowerment To address retention the key factors that contribute to a silent exodus are established through qualitative research with participants of diverse church affiliations Todd examines various models and proposed solutions the Chinese church has used to retain its English speaking congregants and gives attention to a theological basis for being inclusive in mission initiatives and for empowerment through passing the leadership baton Todd makes some recommendations on the new wave of an emerging congregational model that requires negotiation with Chinese church leadership to give power away to English ministry leaders and congregations He anticipates that this will permit transformational leadership practices that contribute to shalom community transformation and lasting congregations

Dunbar,Tony Blair,2013-04-02 It seems that nearly everyone is talking about missional change for congregations As a result many church leaders are attempting to drive that kind of change for the ministries they lead Some succeed But many others hit a wall of

considerable frustration as they find that congregations resist the very change that is so needed. The reasons for this resistance are many and they are explored in this volume. What is required to move a church from resistance to readiness? Some resistance is deeply rooted in spiritual patterns. But there are other reasons as well and they center on trust, personal trust in the leaders who offer missional change. For this work, the authors have done extensive primary and secondary research to identify patterns and behaviors that invite missional leadership. More than that, they've lived this out in their own ministries as pastors of traditional congregations. This book thus offers compelling first person stories and congregational case studies alongside more generalized findings. *Leading Missional Change* was written to support pastors and other church leaders who experience resistance to share wisdom and experience that may lead to readiness and to give hope and encouragement toward a re-energizing of your own congregation. **The Catholic Labyrinth** Peter McDonough, 2013-08-08. At the heart of Catholicism's resistance to change in the U.S. is the equation of hierarchical authority with traditional gender roles, especially the subordination of women. This book traces the variably confrontational and incremental strategies of advocacy groups as they struggle to reconcile an age-old culture with the onslaughts of modernity. *NLT, New Spirit-Filled Life Bible* Thomas Nelson, 2013-06-18.
