proportions in the early 1990s when covert subsidies from the former Soviet Union disappeared Policies instituted by the
island republic s government to handle the worst problems have had inconsistent results Opening the economy to foreign
enterprise has resulted in positive growth in tourism and nickel and cigar exports However remnants of the older economy
including the sugar and biotechnological industries have only experienced a decrease in capital and importance Basic
educational and health services have been maintained surprisingly well but the standard of living is still far below the highs
of the 1980s With contributions from many leading Cuba scholars The Cuban Economy offers not only an analysis of the
economy since 1990 but also a look towards future prospects
