Virginia Reportable Disease List:

The Pathogens of Finance Brent Z. Kaup, Kelly F. Austin, 2025 The Pathogens of Finance is an exploration of how the rising power and profits of Wall Street underpin the contemporary increases in and inadequate responses to vector borne disease Over the past fifty years insects have transmitted infectious diseases to humans with greater frequency and in more unexpected places To examine this phenomena Brent Z Kaup and Kelly F Austin take readers to the exurban homes of northern Virginia the burgeoning agricultural outposts in Mato Grosso Brazil and the smallholder coffee farms of the Bududa District of eastern Uganda Through these case studies the authors illuminate how the broader financialization of society is both intimately intertwined with the creation of landscapes more conducive to vector borne disease and the failure to provide the solutions necessary to prevent and cure such diseases throughout the world
