Technoscientific Research Roman Z. Morawski, 2024-06-04 Unlike the bulk majority of publications on philosophy of science and research ethics which are authored by professional philosophers and intended for philosophers this book has been written by a research practitioner and intended for research practitioners It is distinctive by its integrative approach to methodological and ethical issues related to research practice with special emphasis of mathematical modelling and measurement as well as by attempted application of engineering design methodology to moral decision making It is also distinctive by more than 200 real world examples drawn from various domains of science and technology It is neither a

philosophical treaty nor a quick reference guide It is intended to encourage young researchers especially Ph D students to deeper philosophical reflection over research practice They are not expected to have any philosophical background but encouraged to consult indicated sources of primary information and academic textbooks containing syntheses of information from primary sources This book can be a teaching aid for students attending classes aimed at identification of methodological and ethical issues related to technoscientific research followed by introduction to the methodology of analysing dilemmas arising in this context

The Bird Flu Pandemic Dr. Jeffrey Greene, Karen Moline, 2007-04-01 Based on the recent avian flu outbreaks that have emerged into human populations the World Health Organization now warns us that bird flu if mutated into a supercontagious pandemic form could visit millions of homes within two years The Bird Flu Pandemic provides definitive answers to the questions on all our minds Should we be getting ready for a world catastrophe and if so what should we be doing Will masks help Should we feed our kids poultry Will we be able to go to work Will we be able to leave the house What about pets Just how bad could this get Dr Greene knows exactly what we need to do to keep our families safe sane and secure in the face of what is potentially an unprecedented and life threatening worldwide scourge
