

1. Describe the similarities and differences of the various belief systems in terms of business practices.

BELIEF SYSTEM	SIMILARITIES IN BUSINESS PRACTICES	DIFFERENCES IN BUSINESS PRACTICES
JUDAISM	The similarities of Judaism and business ethics are that they both place a high priority on the ethics that a company should follow. Like valuing integrity and being trustworthy, valuing time so that work is done appropriately, and above all, proper care of employees in terms of employment or wages, fellowship, workers time and so on.	The differences in business ethics of Judaism is that Jews believe worship is necessary because it brings the community together, and they only believe in one God. Aside from that, we all know that businesses have their own laws and regulations, but Jews have their own law, known as Torah law, which has a significant effect on marketing and industry.
CHRISTIANITY	Similarities of business ethics in Christianity is we all believed on that one golden rule that is very connected to business because this saying only tells how we should treat our fellow employees correctly because if we want to treasure someone we must build the relationship of each other. Moreover, they prior having a justice because they always charged fairly just like having a protocols and policy in Philippine.	Difference of business ethics in Christianity is that, they are too generous that even when the store opens they will build in an unsafe neighborhoods where for a business ethics we must consider our action because there are policy concerns both thought and action we must carry out, strategy is mostly with action.
ISLAM	The similarities of business ethics in Islam is that according to them humanity and human purity is most important than making profit and it's the same on having a core principles in business being fair, transparent and etc. is more important because if you have that kind of people profit will be easily to earn.	The differences of business ethics in Islam is that they believed on Allah and has to worship him. That's why they don't want to accept or work in a business in which the transaction is about haram items (meat, liquors, etc.) because for them it is against in Islam moral that's why it is forbidden. That way it might reflect on a business and to its people as well.
HINDUISM	Similarities of business ethics in Hinduism is they also critically examines the role of being the leader and it is also the same on having a business because if you want to be a leader promptness, appropriateness, etiquette, etc. must start from within. Moreover, they also take special care for their behaviors which is necessary in a business because good behavior is what others would imitate. Having integrity will conduct	Any of their actions or beliefs may influence business behavior, which is a difference in business ethics in Hinduism. For example, in an organization, their interactions with other employees can be harmed if they are advised by kj that they have foods that they are unable to consume, such as meat and eggs, which has a negative impact on a company's base. And mostly Hindus belief sometimes is they are contradictory which is not good

Similarities Of Bursary

Similarities Of Bursary:

Theory and Method in Higher Education Research Jeroen Huisman, Malcolm Tight, 2020-11-09 This volume of Theory and Method in Higher Education Research contains analyses and discussions of amongst others relational working corpus linguistics data dialogues instrumental variables participatory pedagogy diverse participation policy discourse quality management and knowledge structures of research

Effective Language Learning Suzanne Graham, 1997 This book investigates some of the learning processes of students of French and German as they begin language learning at an advanced level a stage which is frequently problematic By looking at the learning strategies employed by both successful and less successful language students the author elucidates some of the key cognitive and affective processes which facilitate advanced level language learning The implications of this for the classroom are discussed in detail leading to practical recommendations for learning and teaching strategies A central theme is the need to teach explicitly the proficient use of learning strategies and suggestions are made as to how this may be achieved in the language classroom

Solar and Stellar Activity, Similarities and Differences C. John Butler, John Gerard Doyle, 1999

Teaching Psychology in Higher Education Dominic Upton, Annie Trapp, 2010-01-22 This ground breaking book is the first to address the learning and teaching issues associated with psychology in Higher Education in the UK and Europe Presents effective evidence based practice and advice for both experienced and new lecturers Covers challenging areas of psychology teaching such as research methods and statistics supervision of research projects and management of online learning Relevant for European Universities aligning with the Bologna Declaration

Financing Access and Equity in Higher Education, 2019-02-11 The demand for higher education worldwide is booming Governments want well educated citizens and knowledge workers but are scrambling for funds The capacity of the public sector to provide increased and equitable access to higher education is seriously challenged What are the on the ground realities of developing financial resources and policies to meet the twin goals of equity and access without jeopardizing quality This volume provides in depth reports from selected countries and sub regions Morocco Korea England Uganda Poland Oman East and southern Africa Southeast Asia Brazil and Egypt Each chapter is written by a seasoned educator participating in the Fulbright New Century Scholar program for 2007 2008 Given the near universal constraints of declining resources but increasing enrollments the authors identify common trends such as the public private divide the privatization of the public sector and diversification of funding To address these issues the chapters examine a surprising variety of policy instruments such as means testing targeted subsidies cost sharing institutional aid student bursaries and tax exemptions

Social Media Homicide Confessions Elizabeth Yardley, 2017-09-20 The relationship between crime and social media has become an increasingly important topic in a networked world However the use of social media in relation to violent crime is little understood This unique book by an expert in the field addresses this gap by analysing what those involved in homicide do with social media Using three international cases in which

perpetrators confessed to homicide on social media it investigates the practices of those involved providing a groundbreaking conceptual framework of use to criminologists It argues that such confessions convey important insights not only into the individual offender but also the social and cultural context of contemporary homicide **Including Voices** Richard Rose, Michael Shevlin, 2024-06-07 Through the presentation of research and an examination of exclusionary conditions and the ways in which these are being challenged the editors and authors present an important debate focused upon human rights and practical application of inclusive practices *The Journal of Education*, 1935 **Catholic Schools and the Interests of the Poor** Maria Ugonna Rita Igbo, 2023-10-26 The inspiration behind this book emanated from earlier doctoral research that focused on the preferential option for the poor Subsequent reflections focused more on the idea of religious schools subsidizing fees for poor children The question is How can the schools get the funding to offer free education or subsidize fees for the children How does this reflect on each school's mission integrity These questions have preoccupied the thoughts of the author for a long period The Catholic schools in Nigeria are categorized as private schools and are perceived to be expensive However people who have these views can hardly understand that most Catholic schools in Nigeria do not receive subsidies from the government at all levels in contrast to the schools in countries such as Belgium Germany New Zealand the Netherlands England Scotland and Ireland where Catholic schools receive significant support from public funds The argument for the high fees is that lay teachers have to be well paid to enable them to function effectively and selflessly There is also the need for an efficient supply of quality educational facilities and maintenance of school infrastructure Therefore if Catholic schools are expensive the Church will be failing in its duty to offer educational services to the poor and to those who suffer from deprivation These issues have been carefully analysed and dealt with in this book and some suggestions are proffered that can help the schools to maintain their mission integrity in dealing with the principle of the preferential option for the poor This book beseeches Catholic school board members other Christian denominations and religious organizations non governmental organizations philanthropists individuals and other interested parties to come to the aid of the poor by using education as an instrument *The Education Gazette of the Province of the Cape of Good Hope* Cape of Good Hope (South Africa). Education Department, 1918 **Web Information Systems and Mining** Fu Lee Wang, Zhiguo Gong, Jingsheng Lei, 2010-10-12 The 2010 International Conference on Web Information Systems and Mining WISM 2010 was held October 23-24, 2010 in Sanya China WISM 2010 received 603 submissions from 20 countries and regions After rigorous reviews 54 high quality papers were selected for publication in the WISM 2010 proceedings The acceptance rate was 9% The aim of WISM 2010 was to bring together researchers working in many different areas of Web information systems and Web mining to foster the exchange of new ideas and promote international collaboration In addition to the large number of submitted papers and invited sessions there were several internationally well known keynote speakers On behalf of the Organizing Committee we thank Hainan Province Institute of Computer and Qiongzhou University for its

sponsorship and logistics support We also thank the members of the Organizing Committee and the Program Committee for their hard work We are very grateful to the keynote speakers invited session organizers session chairs reviewers and student helpers Last but not least we thank all the authors and participants for their great contributions that made this conference possible October 2010 Fu Lee Wang Gong Zhiguo Xiangfeng Luo Jingsheng Lei **In This Place** Henry Neufeld,2012-07 The events of our lives are bound up in places The places of our lives and our experiences in these places help shape our identity People form strong attachments to places where they are born or where they have spent most of their lives Places are given meaning and remembered by our experiences in those places There is a deep association with and the places where we were born and grew up where we live now or where we have had particularly moving experiences This association is a point of departure from which we orient ourselves in the world **Resisting Qualifications Reforms in New Zealand** ,2019-02-18 New Zealand has been a veritable laboratory for a range of social experiments in the last twenty years including an arranged marriage with neo liberal economic policies during the late 80s and 90s These experiments extended to education where students teachers teacher educators and researchers have experienced wide ranging reforms in administration curriculum and qualifications The most contentious of these have been a series of untried and radical qualifications reforms This book offers a critical examination of these reforms from the perspective of a group of educators who resisted them by doing the unthinkable devising their own national qualification and making it work **Teaching to discern** Hernando Arturo, Estévez Cuervo,2019-11-30 The issue of academic environments involves both research and practice It gathers theoretical and practical pieces of knowledge for a permanent analysis and evaluation of pedagogy content and accomplishments in the educational field Moreover educational practices no longer occur within the boundaries of a specific field in a globalized world those practices must overcome their traditional boundaries in order to expand to different disciplines and to different ways of understanding pedagogy In our time knowledge travels ideas and experiences are shared in educational platforms worldwide while educators and students create novel ways to collectively participate in research projects that contribute to a greater understanding of the universe The anthology Teaching to Discern Forming Connections Decolonizing Perspectives aims to provide a novel context for academic dialogue on globalized pedagogical practices pecifically it focuses on what it means to teach abroad which means discussing methodologies pedagogies and contents used by educators who have had the opportunity of teaching in a foreign country This book is a dialogue that engages academic experiences in a theoretically expansive and encompassing methodological and content driven framework around the topic of teaching abroad Impact in Doctoral Education Emma Parry,Colin Pilbeam,2024-04-09 Demonstrating how impact can be created and derived from doctoral programmes this book focuses on their influence on academic knowledge policy and practice Significantly it highlights the crucial impact of these programmes on the individual and the enduring consequences of this Drawing on their extensive experience and conversations with stakeholders in doctoral

education from around the world and incorporating real case examples the authors provide practical guidance throughout the book which enables readers to enhance the design of new and existing doctoral programmes for greater impact Each chapter ends with questions to stimulate reflection on the readers experience of impact from doctoral education The concluding chapter outlines a manifesto for enhancing and ensuring impact from doctoral research in the future With insights into the impact of doctoral programmes on individual researchers this book will be essential reading for scholars of management education as well as being a valuable resource for Higher Education administrators and senior academics around the world tasked with increasing impact from their doctoral programmes
