

National Student Financial Aid Scheme (NSFAS)

NSFAS is a **government loan scheme**, with the added incentive of a bursary conversion (maximum of 40%) depending on academic performance.

- If you do well, 40% of this can be converted to a bursary!!
 - If you fail, you will have to pay back EVERYTHING!
-
- **Academically deserving and financially needy students** have the opportunity to apply for a loan from NSFAS, part of which can be converted to a bursary, subject to academic results.
 - Loans do not always cover tuition fees and other study costs in full. The amount of the loan is determined, among other things, by the family's financial need and the student's cost of study.
 - Application forms available online: www.nsfas.org.za

nature and extent of public sector funding of higher education the growth of private financing including both household financing and the growth of private higher education institutions and the changing mix of financing instruments that these countries are developing in response to public sector financial constraints This unique collection of African country case studies draws attention to the remaining challenges around the financing of higher education in Africa but also identifies good practices lessons and common themes **The Youth Dividend** Jan H. Hofmeyr,2012 **Transforming**

Transformation in Research and Teaching at South African Universities Rob Pattman,Ronelle Carolissen,2018-12-21 What is transformation in contemporary South African higher education How can it be facilitated through research and pedagogic practices These questions are addressed in this edited collection by established academics and emerging research students from nine South African universities The chapters give us access to students worlds how they construct experience and navigate their complex spheres on and off campus By engaging with students as knowledge producers we transform popular ways of thinking about race gender class sexuality disability and age as singular and natural markers of difference and diversity Rather than taking diversity as fixed and rooted in nature we explore how diversity is imagined and lived in particular contexts on and off campus **Research Anthology on Physical and Intellectual Disabilities in an Inclusive**

Society Management Association, Information Resources,2021-08-27 Discussions surrounding inclusivity have grown exponentially in recent years In today s world where diversity equity and inclusion are the hot topics in all aspects of society it is more important than ever to define what it means to be an inclusive society as well as challenges and potential growth Those with physical and intellectual disabilities including vision and hearing impairment Down syndrome locomotor disability and more continue to face challenges of accessibility in their daily lives especially when facing an increasingly digitalized society It is crucial that research is brought up to date on the latest assistive technologies educational practices work assistance and online support that can be provided to those classified with a disability The Research Anthology on Physical and Intellectual Disabilities in an Inclusive Society provides a comprehensive guide of a range of topics relating to myriad aspects difficulties and opportunities of becoming a more inclusive society toward those with physical or intellectual disabilities Covering everything from disabilities in education sports marriages and more it is essential for psychologists psychiatrists pediatricians psychiatric nurses clinicians special education teachers social workers hospital administrators mental health specialists managers academicians rehabilitation centers researchers and students who wish to learn more about what it means to be an inclusive society and best practices in order to get there **Postgraduate Research**

Engagement in Low Resource Settings Atibuni, Dennis Zami,2019-09-27 The general academic progression and particularly research engagement of postgraduate students is characterized by various problems such as high dropout rates longer completion times low graduation rates and high repetition or retake rates This means that there are far fewer students pursuing postgraduate studies at tertiary institutions and universities than there are at the lower levels of education

Yet there is growing demand for postgraduate education given its strong projected association with socioeconomic transformation at national and international levels among developed and developing countries alike Postgraduate Research Engagement in Low Resource Settings sets out to garner strategies for fostering efficiency of research conduct among the students and faculty so as to enhance high quality output for the envisaged personal societal national and international socioeconomic transformation Covering a range of topics such as intellectual property mental health and quality assurance this book is ideal for research supervisors higher education faculty librarians educators administrators researchers academicians and students

Shadow Libraries Joe Karaganis, 2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks From the top down Shadow Libraries explores the institutions that shape the provision of educational materials from the formal sector of universities and publishers to the broadly informal ones organized by faculty copy shops student unions and students themselves It looks at the history of policy battles over access to education in the post World War II era and at the narrower versions that have played out in relation to research and textbooks from library policies to book subsidies to more recently the several open publication models that have emerged in the higher education sector From the bottom up Shadow Libraries explores how simply students get the materials they need It maps the ubiquitous practice of photocopying and what are in many cases the more marginal ones of buying books visiting libraries and downloading from unauthorized sources It looks at the informal networks that emerge in many contexts to share materials from face to face student networks to Facebook groups and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online the shadow libraries of the title If Alexandra Elbakyan's Sci Hub is the largest of these efforts to date the more characteristic part of her story is the prologue the personal struggle to participate in global scientific and educational communities and the recourse to a wide array of ad hoc strategies and networks when formal authorized means are lacking If Elbakyan's story has struck a chord it is in part because it brings this contradiction in the academic project into sharp relief universalist in principle and unequal in practice Shadow Libraries is a study of that tension in the digital era Contributors Bal zs Bod Laura Czerniewicz Mirosław Filiciak Mariana Fossatti Jorge Gemetto Eve Gray Evelin Heidel Joe Karaganis Lawrence Liang Pedro Mizukami Jhessica Reia Alek Tarkowski
