A Season of Splendor Greg King, 2008-10-01 Journey through the splendor and the excesses of the Gilded Age Every aspect of life in the Gilded Age took on deeper transcendent meaning intended to prove the greatness of America residences beautified their surroundings works of art uplifted and were shared with the public clothing exhibited evidence of breeding jewelry testified to cultured taste and wealth dinners demonstrated sophisticated palates and balls rivaled those of European courts in their refinement The message was unmistakable the United States had arrived culturally and Caroline Astor and her circle were intent on leading the nation to unimagined heights of glory From A Season of Splendor Take a dazzling journey through the Gilded Age the period from roughly the 1870s to 1914 when bluebloods from older established families met the nouveau riche headlong railway barons steel magnates and Wall Street speculators and forged an uneasy and glittering new society in New York City The best of the best were Caroline Astor's 400 families and she shaped and ruled this high society with steel A Season of Splendor is a panoramic sweep across this sumptuous landscape presenting the families the wealth the balls the clothing and the mansions in vivid detail as well as the shocking end of the era with the sinking of the Titanic

Visitor access and facilities Great Britain: Parliament: House of Commons: Administration Committee, 2012-05-23 Approximately 1 million people enter the parliamentary estate every year as visitors rather than as Members or staff of the two Houses of Parliament The two Houses must balance the business needs of a fully working legislature and those of a visitor attraction Parliament is first and foremost a working institution and that implies clear principles for how access is organised Democratic access to the work of Parliament must remain free and open enabling any citizen at least so far as physical space allows open access to sittings in the two Chambers in the Committee Rooms and in Westminster Hall or to meet their Member of Parliament Considerable work needs to be done on how the visitor attraction part of Parliament is best operated not least in persuading some reluctant Members and staff of both Houses and an often instinctively negative media

to recognise the difference between democratic access to the work of the place and interest in its heritage and tourism aspects The central idea that has emerged in this inquiry is that two conceptions of Parliament are required the working institution and the visitor attraction The two should be complementary not in conflict and some of the tensions that presently arise from for example queues outside the building and the consequent delay of business meetings for Members and others would be resolved if the two concepts were more rigorously held apart

Lusitania Greg King, Penny Wilson, 2015-02-24 On the 100th Anniversary of its sinking King and Wilson tell the story of the Lusitania's glamorous passengers and the torpedo that ended an era and prompted the US entry into World War I Lusitania She was a ship of dreams carrying millionaires and aristocrats actresses and impresarios writers and suffragettes a microcosm of the last years of the waning Edwardian Era and the coming influences of the Twentieth Century When she left New York on her final voyage she sailed from the New World to the Old yet an encounter with the machinery of the New World in the form of a primitive German U Boat sent her and her gilded passengers to their tragic deaths and opened up a new era of indiscriminate warfare A hundred years after her sinking Lusitania remains an evocative ship of mystery Was she carrying munitions that exploded Did Winston Churchill engineer a conspiracy that doomed the liner Lost amid these tangled skeins is the romantic vibrant and finally heartrending tale of the passengers who sailed aboard her Lives relationships and marriages ended in the icy waters off the Irish Sea those who survived were left haunted and plagued with guilt Authors Greg King and Penny Wilson resurrect this lost glittering world to show the golden age of travel and illuminate the most prominent of Lusitania's passengers Rarely was an era so glamorous rarely was a ship so magnificent and rarely was the human element of tragedy so quickly lost to diplomatic maneuvers and militaristic threats

Accounting & Business, 2003

Dissonant Voices Joseph Pizzi, 2023-09-28

Dissonant Voices Race Jazz and Innovative Poetics in Midcentury America explores the braiding together of racial politics popular music and avant garde poetics in post war American culture Ranging from roughly the late 1940s to the early 1970s this study examines the development of open field poetics alternately termed projective verse after Charles Olson's influential essay of the same name In doing so it traces projective verse from its creation amidst the crucible of racial integration at Black Mountain College to its development through a series of interracial friendships explored among writers involved in the Boston San Francisco and downtown New York scenes to its reimagining by African American poets working in Harlem Los Angeles and beyond as part of the Black Arts Movement Because the histories of integration jazz and postwar poetics have been studied too often as the subjects of disparate narratives and separate disciplines this arc of their shared development has also been largely obscured To remedy this the present study takes an interdisciplinary approach with insights from contemporary histories performance studies sound studies critical race theory and literary criticism informing the mix of literary analysis musicology and historical detail that comprises each chapter Accordingly the book argues for an integrated approach to the New American Poetry and the Black Arts Movement one that situates the midcentury poetics of

breath and performance in the context of the Civil Rights era politics and jazz music that informed it Moreover it also unearths significant and little understood connections between Black Mountain the Beats the Boston Renaissance the New York scene and the Black Arts Movement expanding thereby our understandings of each and in a more general sense of contemporary American poetry politics and music in the process **College and University** ,2006 Register of Higher Education 1997 Peterson's,1996-12-08 Victorians Institute Journal ,1985 The Resurrection of the Romanovs Greg King,Penny Wilson,2010-12-10 The truth of the enduring mystery of Anastasia s fate and the life of her most convincing impostor The passage of more than ninety years and the publication of hundreds of books in dozens of languages has not extinguished an enduring interest in the mysteries surrounding the 1918 execution of the last Russian Tsar Nicholas II and his family The Resurrection of the Romanovs draws on a wealth of new information from previously unpublished materials and unexplored sources to probe the most enduring Romanov mystery of all the fate of the Tsar s youngest daughter Anastasia whose remains were not buried with those of her family and her identification with Anna Anderson the woman who claimed to be the missing Grand Duchess Penetrates the intriguing mysteries surrounding the execution of Tsar Nicholas II and the true fate of his daughter Anastasia Reveals previously unknown details of Anderson s life as Franziska Schanzkowska Explains how Anderson acquired her knowledge why people believed her claim and how it transformed Anastasia into a cultural phenomenon Draws on unpublished materials including Schanzkowska family memoirs legal papers and exclusive access to private documents of the British and Hessian Royal Families Includes 75 photographs dozens published here for the first time Written by the authors of The Fate of the Romanovs Refuting long accepted evidence in the Anderson case The Resurrection of the Romanovs finally explodes the greatest royal mystery of the twentieth century **Faith in Education at the Skidaway Island Benedictine Mission** Laura Seifert,2024-10-15 Having survived the turmoil of Reconstruction several hundred African American tenant farmers were settled on Skidaway Island Georgia and led a fairly quiet existence In 1877 Benedictine monks intruded into this relatively safe if desperately poor haven and built a Catholic mission and boys boarding school For the next two decades the Benedictines and locals negotiated for influence over the islanders religious convictions and education Faith in Education at the Skidaway Island Benedictine Mission brings together the recovered archaeological data and extensive Benedictine archives to reconstruct the intersecting lives of monks students lay brothers and African American neighbors on Skidaway Island Unlike a purely historical treatment this book amplifies the documentary evidence with archaeological findings including glass from arched church windows writing slate and slate pencil fragments a kerosene lamp and harmonica fragments The narrative balances the chronological story of the Skidaway Island mission with the larger history of African American education in Savannah and Chatham County from 1865 to the mission s closure circa 1900 Ultimately Laura Seifert s analysis shows how the roots of our educational system resulted in inequities today particularly because racism is a prominent thread that connects past and present problems **Traces of Vermeer** Jane

Jelley, 2017-07-14 Johannes Vermeer's luminous paintings are loved and admired around the world yet we do not understand how they were made. We see sunlit spaces, the glimmer of satin, silver and linen; we see the softness of a hand on a lute string or letter. We recognise the distilled impression of a moment of time and we feel it to be real. We might hope for some answers from the experts but they are confounded too. Even with the modern technology available, they do not know why there is no evidence of any preliminary drawing, why there are shifts in focus and why his pictures are unusually blurred. Some wonder if he might possibly have used a camera obscura to capture what he saw before him. The few traces Vermeer has left behind tell us little: there are no letters or diaries and no reports of him at work. Jane Jelley has taken a new path in this detective story. A painter herself, she has worked with the materials of his time: the cochineal insect and lapis lazuli, the sheep bones, soot, earth and rust. She shows us how painters made their pictures, layer by layer; she investigates old secrets and hears travellers' tales. She explores how Vermeer could have used a lens in the creation of his masterpieces. The clues were there all along. After all this time, now we can unlock the studio door and catch a glimpse of Vermeer inside painting light.
