Electrotechnology Practice Jeffery Hampson, Steven Hanssen, 2019-06-07 Electrotechnology Practice is a practical text that accompanies Hampson Hanssen's theoretical Electrical Trade Principles. It covers essential units of competencies in the two key qualifications in the UEE Electrotechnology Training Package: Certificate II in Electrotechnology Career Start Certificate III in Electrotechnology Electrician. Aligned with the latest Australian and New Zealand standards, the text references the Wiring Rules AS/NZS 3000:2018 and follows the uniform structure and system of delivery as recommended by the nationally accredited vocational education and training authorities. More than 1000 illustrations convey to the learner various concepts and real-world aspects of electrical practices; a range of fully worked examples and review questions support student learning while assessment-style worksheets support the volume of assessment.
