The Big Tiny A Built It Myself Memoir:

The Big Tiny Dee Williams, 2014-04-22 Dee Williams's life changed in an instant with a near death experience in the aisle of her local grocery store. Diagnosed with a heart condition at age forty one she was all too suddenly reminded that life is short, time is precious and she wanted to be spending hers with the people and things she truly loved. That included the beautiful sprawling house in the Pacific Northwest she had painstakingly restored but increasingly it did not include the mortgage payments, constant repairs and general time suck of home ownership. A new sense of clarity began to take hold. Just what was all this stuff for? Multiple extra rooms, a kitchen stocked with rarely used appliances were things that couldn't compare with the financial freedom and the ultimate luxury: time that would come with downsizing. Deciding to build an eighty four square foot house on her own from the ground up was just the beginning of building a new life. Williams can now list everything she owns on one sheet of paper, her monthly housekeeping bills amount to about eight dollars and it takes her approximately ten minutes to clean the entire house. It's left her with more time to spend with family and friends and given her freedom to head out for adventure at a moment's notice or watch the clouds and sunset while drinking a beer on her yes tiny front porch. The lessons Williams learned from her aha moment post trauma apply to all of us every day regardless of whether or not we decide to discard all our worldly belongings. Part how to part personal memoir. **The Big Tiny** is an utterly seductive meditation on the benefits of slowing down, scaling back and appreciating the truly important things in life. **The**

Big Tiny Dee Williams, 2015-04-28 Part how to part personal memoir. **The Big Tiny** is an utterly seductive meditation on the benefits of slowing down, scaling back and appreciating the truly important things in life. More than ten years ago a near death experience abruptly reminded sustainability advocate and pioneer Dee Williams that life is short. So she sold her sprawling home and built an eighty four square foot house on her own from the ground up. Today Williams can list everything she owns on one sheet of paper, her monthly housekeeping bills amount to about eight dollars and it takes her about ten minutes to clean the entire house. Adapting a new lifestyle left her with the ultimate luxury: more time to spend with friends and family and gave her the freedom to head out for adventure at a moment's notice or watch the clouds and sunset while drinking a beer on her yes tiny front porch. The Tiny House Movement Tracey Harris, 2018-10-15

The Tiny House Movement Challenging Consumer Culture features in depth interviews with movement residents, builders and advocates as well as the author's insights from her fieldwork of living tiny. In it we learn how the movement is challenging consumerism, overwork and environmental destruction and facilitating a more meaningful understanding of home. This book highlights that the tiny house movement is more than a lifestyle choice and that the movement challenges the consumerist lifestyle. In Canada and the United States we are taught that bigger is better and that constant growth in our personal wealth accumulation and in the economy is a sign of our success. We sacrifice well being and life satisfaction because of our relationship with stuff. This leads to personal debt and unsustainability in our relationships, communities and the environment.

A House and its Atmosphere Ben Jacks,2018-01-15 A House and its Atmosphere is a meditative essay about the experience of designing and building a house of one s own Told in seventy black and white photographs and a series of narrative excursions architect Ben Jacks reflects on a lifetime of influences as he reveals the personal nature of inhabiting a place at the edge of a tidal cove on an island in Maine In the book he quietly advocates for the simple logic and modest ease of direct experience and an observational perspective in architecture In chapters about imagining walking and designing Ben Jacks reflects on the essence of architectural experience describing what it is like to begin to make momentous decisions arguing that aesthetic experience is the result of how one has learned to see Memory family nature relationships and work inform design at every step A House and its Atmosphere is a grounded story about designing and building a small work of architecture With students of architecture and amateur builders in mind Ben Jacks makes a case for design informed by theories of place identification detail and craft The book is a primary source and a chronicle of experience of radical

empiricism As such it offers a kind of conceptual tool kit for those interested in thinking about the processes of architecture designing and placemaking The book is a fresh and valuable contribution to the shelter memoir genre from a professional architect s perspective Sociology of Home Gillian Anderson,Joseph G. Len Catron author of *How to Fall in Love with Anyone* A deeply personal and informed reflection on the modern world and why so many feel disillusioned by it In 2016 journalist Tara Henley was at the top of her game working in Canadian media She had traveled the world from Soweto to Bangkok and Borneo to Brooklyn interviewing authors and community leaders politicians and Hollywood celebrities But when she started getting chest pains at her desk in the newsroom none of that seemed to matter The health crisis not cardiac it turned out but anxiety forced her to step off the media treadmill and examine her life and the stressful twenty first century world around her Henley was not alone North America was facing an epidemic of lifestyle related health problems And yet the culture was continually celebrating the elite few who thrived in the always on work world those who perpetually leaned in Henley realized that if we wanted innovative solutions to the wave of burnout and stress related illness it was time to talk to those who had leaned out Part memoir part travelogue and part investigation *Lean Out* tracks Henley s journey from the heart of the connected city to the fringe communities that surround it From early retirement enthusiasts in urban British Columbia to moneyless men in rural Ireland Henley uncovers a parallel track in which everyday citizens are quietly dropping out of the mainstream and reclaiming their lives from overwork Underlying these disparate movements is a rejection of consumerism a growing appetite for social contribution and a quest for meaningful connection in this era of extreme isolation and loneliness As she connects the dots between anxiety and overwork Henley confronts the biggest issues of our time
