[A Journey through the Beyond](#) Silvia Zago, 2022-02-01 This volume offers the first comprehensive overview of the evolution over time of a foundational concept of the Egyptian afterlife beliefs the Duat or netherworld The Duat is a complicated multifaceted notion which was never canonized into a single version of the beyond but offered instead a variety of alternatives attempting to describe the metaphysical realms beyond the visible world and beyond life Theological

speculations gave rise to a rich textual and visual repertoire which underwent a process of evolution over thousands of years during which newer ideas and images were constantly introduced Through the analysis of royal and non royal funerary texts from the late Old Kingdom to the end of the New Kingdom this book traces the development of the conceptualization of the notion of Duat outlining what it encompassed and where it was imagined to be located In addition to the translation and discussion of the most significant passages of the texts analyzed each chapter also provides an overview of the individual compositions and of the relevant theological cosmological and astronomical notions complementing the conceptual framework of which the Duat formed but a part Additionally discussions of concurrent changes in Egyptian culture society and ideology are included in order to clarify the context in which afterlife beliefs and related texts evolved An analysis of the correlation between funerary compositions and their material supports complements the study emphasizing the Egyptians belief in a magical synergy between texts images and their contexts in the activation of a suitable effective afterlife for the recipients of the texts

Pygmalion's Power Thomas E. A. Dale, 2019-10-25 Pushed to the height of its illusionistic powers during the first centuries of the Roman Empire sculpture was largely abandoned with the ascendancy of Christianity as the apparent animation of the material image and practices associated with sculpture were considered both superstitious and idolatrous In *Pygmalion's Power* Thomas E A Dale argues that the reintroduction of architectural sculpture after a hiatus of some seven hundred years arose with the particular goal of engaging the senses in a Christian religious experience Since the term Romanesque was coined in the nineteenth century the reintroduction of stone sculpture around the mid eleventh century has been explained as a revivalist phenomenon one predicated on the desire to claim the authority of ancient Rome In this study Dale proposes an alternative theory Covering a broad range of sculpture types including autonomous cult statuary in wood and metal funerary sculpture architectural sculpture and portraiture Dale shows how the revitalized art form was part of a broader shift in emphasis toward spiritual embodiment and affective piety during the late eleventh and twelfth centuries Adding fresh insight to scholarship on the Romanesque *Pygmalion's Power* borrows from trends in cultural anthropology to demonstrate the power and potential of these sculptures to produce emotional effects that made them an important sensory part of the religious culture of the era
