The Wiley Blackwell Concise Companion to The Hadith Daniel W. Brown, 2020-01-14 The most comprehensive and up to date English language guide on hadith scholarship The source of much of our knowledge of the first two centuries of Islamic history the hadith literature is made up of thousands of traditions collected during the formative

years of Islam. Alongside the Qur'an, the hadith forms a second major body of Islamic scripture and much of Islamic belief and practice rests on the hadith, including Islamic law, Islamic theology, Qur'anic interpretation, political thought, and personal behavior. Yet despite its importance to Muslims worldwide and its indispensable role as a source for early Islamic history, the hadith remains unexplored territory for many non-specialist readers. *The Wiley Blackwell Companion to the Hadith* is a concise yet comprehensive overview of both Islamic and Western traditions of hadith study, offering up-to-date scholarship and providing readers with an essential guide to this distinctive aspect of Islam. Written by a multidisciplinary team of distinguished scholars, the Companion discusses questions of authenticity, epistemology, and authority in the hadith and explores the relationship of the hadith literature to other ways of transmitting knowledge and establishing authority. It covers the origins of hadith, the application of hadith within the Islamic intellectual tradition, and contemporary revaluations of hadith literature. It addresses developments in modern scholarship about the origins of Islam and Islamic law, which are rooted in a revaluation of hadith. It presents new and groundbreaking research from international scholars from divergent perspectives to present an accurate and lively overview of the field. It explores the emergence of skepticism about hadith among Western scholars. It surveys the evolution of a wide range of approaches to hadith among modern Muslims. It fills a significant gap in current literature in the field. *The Wiley Blackwell Companion to the Hadith* is a valuable resource for students, scholars, and researchers in Islamic studies, Islamic law, history, and theology.

Pathways to Contemporary Islam Mohamed Nawab
 Mohamed Osman, 2025-10-01 *Pathways to Contemporary Islam: New Trends in Critical Engagement* highlights that the current tensions in Islam and the Muslim world are the result of historical dynamics as opposed to an alleged incompatibility between religious tradition and modernity. The emphasis on pathways indicates that critical engagement and contestation have always been intrinsic to the history of Islam. The aim of the book is to elaborate the contemporary pathways and analyse the trends that contest the Islamic intellectual tradition, the relationship between religion and politics, and the individual and collective practice of religion. The collection of essays analyses the current efforts of critical re-engagement with the Islamic intellectual tradition and underlines the historical diversity of Islamic orthodoxies that led to the establishment of various pathways in the practice and role of religion in Muslim societies.

The Woman Question in Islamic Studies Kecia Ali, 2024-09-17 *The interconnected ways that sexism functions in academic Islamic studies and how to shift professional norms toward parity.* Despite remarkable shifts in the demographics of Islamic studies in recent decades, the field continues to be dominated by men who often relegate other scholars and their work, particularly research on gender, to its periphery while treating subfields in which men predominate as more rigorous and central. In *The Woman Question in Islamic Studies*, Kecia Ali explores the interconnected ways that sexism functions in academic Islamic studies. Examining publications, citations, curricula, and media representations, Ali finds that despite the growth and depth of scholarship on Islam and gender, men continue to overlook women's scholarship even in work that purports to discuss gender issues. Moreover, media and social

media dynamics make talking about Islam and Muslims for broader audiences especially fraught for scholars who are not men particularly when the topic is gender or sexuality Combining broad surveys with more focused analyses of a smaller set of texts Ali shows that textbooks and syllabi continue to exclude women as historical actors and scholars and to marginalize gender and sexuality as subject matter Finally she provides a Beginner's Guide to Eradicating Sexism in Islamic Studies offering practical strategies to help scholars avoid common pitfalls in their own work and contribute to broader professional transformations

Comparative Law Uwe

Kischel,2019-02-21 Uwe Kischel's comprehensive treatise on comparative law offers a critical introduction to the central tenets of comparative legal scholarship. The first part of the book is dedicated to general aspects of comparative law. The controversial question of methods in particular is addressed by explaining and discussing different approaches and by developing a contextual approach that seeks to engage with real world issues and takes a practical perspective on contemporary comparative legal scholarship. The second part of the book offers a detailed treatment of the major legal contexts across the globe including common law civil law systems based on Germany and France and extended to Eastern Europe Scandinavia and Latin America among others the African context with an emphasis on customary law different contexts in Asia Islamic law and law in Islamic countries plus a brief treatment of Jewish law and canon law and transnational contexts public international law European Union law and *lex mercatoria*. The book offers a coherent treatment of global legal systems that aims not only to describe their varying norms and legal institutions but to propose a better way of seeking to understand how the overall context of legal systems influences legal thinking and legal practice. **Women and Gender in**

the Qur'an Celene Ibrahim,2020-10-01 Stories related to gendered social relations permeate the Qur'an and nearly three hundred verses involve specific women or girls. These stories weave together theology and ethics to reinforce central Qur'anic ideas regarding submission to God and moral accountability. *Women and Gender in the Qur'an* outlines how women and girls old young barren fertile chaste profligate reproachable and saintly enter Qur'anic sacred history and advance the Qur'an's overarching didactic aims. Solomon and the Ant David Penchansky,2021-07-30

Solomon and the Ant using the Bible as a dialogue partner examines stories from the Qur'an their drama characters and meaning. Although some Qur'anic stories have close biblical parallels here Penchansky examines stories without biblical precursors. Qur'anic narratives in dialogue with biblical texts enhance understanding. Penchansky chooses biblical stories that address similar questions about the nature of God and God's interaction with people. Solomon matches wits with an ant a bird and the queen of Sheba. Magical creatures the jinn are driven out of heaven by fiery meteors. Moses on a quest meets a mysterious stranger. The Bible offers parallels and connections. Genesis Exodus Isaiah Matthew and other biblical books contrast with the Qur'anic text. Comment on the Qur'anic story and supplement it. Separated by space and time the Bible and the Qur'an faced similar issues. Both the Bible and the Qur'an adapted material from their surrounding culture while at the same time distinguishing themselves from that culture. Rather than addressing this cultural confrontation with rigid certainty the Bible and the Qur'an are ambiguous and multivocal. The Bible and the Qur'an are layered containing stories within stories fragments and structural abnormalities. These features contribute to meaning. Penchansky's analysis of these stories makes the Qur'an accessible and compelling to nonspecialists and students. *Human Struggle* Mona Siddiqui,2021-08-25

The first comparative work to explore how humankind seek out the meaning of life amid suffering and struggle. **The End of All Things Is at Hand** Veli-Matti Kärkkäinen,2022-01-20 This book proposes a bold vision of the end of human life and the cosmos based on the hopeful vision

of Christian faith In a dialogue with the best of Christian tradition the natural sciences conjectures of the end as well as Islam's rich teaching on the doctrine of the Last Things a fresh constructive eschatology is recommended While based on wide and deep academic learning the conversational style of the book makes it suitable for various kinds of audiences from pastors to students to scholars and to interested lay folks *Islam* Cenap Çakmak, 2017-05-18 This expansive four volume encyclopedia presents a broad introduction to Islam that enables learning about the fundamental role of Islam in world history and promotes greater respect for cultural diversity One of the most popular and widespread religions in the world Islam has attracted a great deal of attention in recent times particularly in the Western world With the ongoing tensions in the Middle East and a pervasive sense of hostility toward Arab Americans there is ever increasing need to examine and understand Islam as a religion and historical force Islam A Worldwide Encyclopedia provides some 700 entries on Islam written by expert contributors that cover the religion from the birth of Islam to the present time The set also includes 16 pages of color images per volume that serve to illustrate the diverse expressions of this important religious tradition Each entry begins with a basic introduction followed by a general discussion of the subject and a conclusion Each entry also features a further readings list for readers In addition to supplying a comprehensive authoritative overview of Islam this work also specifically addresses many controversial related issues including jihad violence in Islam polygamy and apostasy **Pre-Islamic Arabia** Valentina A. Grasso, 2023-02-23 This book delves into the political and cultural developments of pre Islamic Arabia focusing on the religious attitudes of the inhabitants of the Arabian Peninsula and its northern extension into the Syrian desert Between the third and the seventh century Arabia was on the edge of three great empires Iran Rome and Aksum and at the centre of a lucrative network of trade routes Valentina Grasso offers an interpretative framework which contextualizes the choice of Arabian elites to become Jewish sympathisers and or convert to Christianity and Islam by probing the mobilization of faith in the shaping of Arabian identities For the first time the Arabians of the period are granted autonomy from marginalizing mostly Western narratives framing them as barbarians inhabiting the fringes of Rome and Iran and or deterministic analyses in which they are depicted retrospectively as exemplified by the Muslims definition of the period as Jahiliyah ignorance
