The Bomber Command War Diaries An Operational Reference :

The Bomber Command War Diaries Martin Middlebrook, Chris Everitt, 2014-04-02 The essential WWII historical reference detailing RAF Bomber Command's extensive campaign of strategic bombings across occupied Europe. The Royal Air Force Bomber Command's strategic bombing campaign started on the first day of the Second World War and ended five and a half years later with the final victory in Europe. It was a campaign of such enormous scale that historians have only recently begun to piece together the finer details of the individual raids. Aviation historian Martin Middlebrook and his research colleague Chris Everitt were the first to compile a complete review of all the raids and their background stories. The Bomber Command War Diaries not only documents every Bomber Command operation but also details their effects on the ground, drawing on local archives from Germany, Italy, and the occupied countries. It is a groundbreaking work on historical research, bringing together the two sides of Bomber Command's war. This edition includes retrospective observations and a new appendix.

The Bomber Command War Diaries Martin Middlebrook, 1987 *Bomber Command: Reflections of War, Volume 4* Martin W. Bowman, 2013-02-05 This is the fourth volume of a five-part work that provides a comprehensive insight into all aspects of RAF Bomber Command in World War Two. It begins in the spring of 1944 with a completely new insight on the catastrophic raid on Nuremberg on the night of 30/31 March and follows with the disastrous attack on Mailly le Camp in May. Gradually the Allied Bomber Offensive began to bear fruit, and in June 1944 the invasion of Normandy took place under an umbrella of almost total Allied air superiority. RAF Bomber Command was to play a huge part in what proved to be the final steps to ultimate victory, returning to the mass raids on German cities by night and even mounting raids on the Reich by day. The authors' well-tried formula of using background information interspersed with the crews' personal narrative takes you raid by raid through each tour of ops while carrying full bomb loads in sub-zero temperatures, blighted by atrocious weather conditions and dogged by fear of fire, death, or serious injury, or having to endure months, if not years, of miserable existence and near starvation behind the wire in notorious PoW camps. The path to peace was paved with the unmitigated slow ebbing of courage with an ever-present possibility of death, unannounced from a prowling night fighter, nondescript and unseen as night after incessant night, shattered and ailing bombers could run out of luck to crash in some foreign field while other crews, almost home, almost empty, ran out of fuel and died horrible, tortuous deaths in twisted and tangled wreckage. Not for them the glory that was accorded the Few, but as Winston Churchill said, 'Fighters are our salvation but the bombers alone provide the means of victory.' *Legion of the Lancasters* Martin W. Bowman, 2023-01-05 Since he had already decided to use his nose armament against the four-mot four-engined bomber, he looked out and focused on a black shape. The Britisher's small bluish exhaust flames made it easier to keep the target in sight. Four engines, twin tail, were recorded almost subconsciously. No sudden movement that might attract their attention. Calm now. Guns armed. Night sight switched on. Everything OK. Now he could see that it was a Lancaster crossing gently from starboard to port. He applied a little more power and approached.

cautiously Now he was exactly behind him at about 100 metres range The rear turret was clearly recognisable Br nies kept silent Pauke Pauke Kettledrums Kettledrums S the announced with a cry Br nies immediately transmitted Ich beruhe Then they closed in rapidly for the kill One can almost smell the flak taste the cordite and experience the nervous twitch before jumping out of one s skin to the sound of exploding shells and detonating bombs in this pulsating and highly intriguing selection of never before told stories recalled largely by members of the revered Lancaster crews of RAF Bomber Command From this bomber s introduction into service in 1942 with the famous if flawed raid on Augsburg on 17 April that year to the attacks on the Tirpitz in 1944 each chapter is a tribute to the spirit of those who flew the Lanc in anger and gained the respect of their enemies *Wings of War* Martin W. Bowman,2016-07-07 Of the 7 953 Bomber Command aircraft lost on night operations during the Second World War an estimated 5 833 fell victim to Luftwaffe night fighters In this detailed re-enactment of the air war over Western Europe and the raids flown by the men of RAF Bomber Command author Martin Bowman pieces together official data with the words and memories of the pilots and air crew who took part Detailing many unique experiences during the night bombing raids that were hurled against Hitler s war machine these truly epic stories span the period between November 1939 and 1945 and form an appropriate epitaph to the men of RAF Bomber Command

Battle of Berlin 1943-44 Richard Worrall,2019-09-19 This illustrated study explores in detail the controversial Battle of Berlin RAF Bomber Command s costly brutal attempt to prove that strategic bombing alone could bring an end to World War II Throughout late 1943 into early 1944 an epic struggle raged over the skies of Germany between RAF Bomber Command and the Luftwaffe This campaign had been undertaken by the Commander in Chief Bomber Command Air Chief Marshal Sir Arthur Harris and was baptized The Battle of Berlin The Berlin campaign was a hard desperate slog Struggling against dreadful and bitter winter weather Bomber Command went to Berlin a total of sixteen times suffering increasingly severe losses throughout the winter of 1943 44 in the face of a revitalized German air defence The campaign remains controversial and the jury even today is ultimately undecided as to what it realistically achieved Illustrated throughout with full colour artwork depicting the enormous scale of the campaign this is the story of the RAF s much debated attempt to win the war through bombing alone **The Heavy Bomber Offensive of WWII** Martin W. Bowman,2015-05-31 This book contains fourteen stirring accounts each conveying an authentic sense of what it was really like to fly as a member of air crew during the various bombing operations of the Second World War The storytellers are an eclectic mix of pilots navigators bomb aimers wireless operators and gunners who flew on operations in heavy bombers It conveys the terror of being coned by German searchlights over the target attacks by Luftwaffe night fighters often catastrophic damage to aircraft and the ensuing struggle to keep the machine airborne on the return trip to base It tells of the comradeship between the crew and the humour between them often borne of fear The gentle and unassuming narratives include Millennium One of Our Aircraft Is Missing Bomber s Moon Bombing Berlin The Ordeal Of Pilot Officer Romans DFC Last Man Out operations on Whitleys and

Halifaxes Flying Officer X Stirlings Rescue At Sea The Incendiary Load s Alight The Night Of The Bombs and The Kassel Raids of 1943 as well as BBC Broadcasts and stories by Allied war correspondents Each of these accounts conveys the sense of purpose that these men felt in doing one of the most dangerous jobs of the war It is a fitting tribute to those that survived and the many thousands who died in the struggle against Hitler s dreadful ambitions in Europe *The Bombing War* Richard Overy,2013-09-26 The ultimate history of the Blitz and bombing in the Second World War from Wolfson Prize winning historian and author Richard Overy The use of massive fleets of bombers to kill and terrorize civilians was an aspect of the Second World War which continues to challenge the idea that Allies specifically fought a moral war For Britain bombing became perhaps its principal contribution to the fighting as night after night exceptionally brave men flew over occupied Europe destroying its cities The Bombing War radically overhauls our understanding of the War It is the first book to examine seriously not just the most well known parts of the campaign but the significance of bombing on many other fronts the German use of bombers on the Eastern Front for example as well as much newly discovered material on the more familiar Blitz on Britain or the Allied campaigns against Italian cities The result is the author s masterpiece a rich gripping picture of the Second World War and the terrible military technological and ethical issues that relentlessly drove all its participants into an abyss Reviews Magnificent must now be regarded as the standard work on the bombing war It is probably the most important book published on the history of the second world war this century Richard J Evans Guardian Monumental this is a major contribution to one of the most controversial aspects of the Second World War full of new detail and perspectives hugely impressive James Holland Literary Review This tremendous book does what the war it describes signally failed to do With a well thought out strategy and precision it delivers maximum force on its objectives The result is a masterpiece of the historian s art The Times It is unlikely that a work of this scale scope and merit will be surpassed Times Higher Education What distinguishes Mr Overy s account of the bombing war from lesser efforts is the wealth of narrative detail and analytical rigour that he brings to bear Economist Excellent Overy is never less than an erudite and clear eyed guide whose research is impeccable and whose conclusions appear sensible and convincing even when they run against the established trends Financial Times Hard to surpass If you want to know how bombing worked what it did and what it meant this is the book to read Times Literary Supplement About the author Richard Overy is the author of a series of remarkable books on the Second World War and the wider disasters of the twentieth century The Dictators Hitler s Germany Stalin s Russia won both the Wolfson Prize for History and the Hessell Tiltman Prize He is Professor of History at the University of Exeter Penguin publishes 1939 Countdown to War The Morbid Age Russia s War Interrogations The Battle of Britain and The Dictators He lives in London *A God in Ruins* Kate Atkinson,2015-05-05 This stunning companion to Kate Atkinson s 1 bestseller *Life After Life* one of the best novels I ve read this century Gillian Flynn follows Ursula s brother Teddy as he navigates an unknown future after a perilous war He had been reconciled to death during the war and then suddenly the war

in Britain during the Second World War Rebecca Searle, 2020-07-23 The War Artists Advisory Committee WAAC were responsible for the production of some of the most iconic images of the Second World War Despite its rich historical value this collection has been poorly utilised by historians and hasn't been subjected to the levels of analysis afforded to other forms of wartime culture This innovative study addresses this gap by bringing official war art into dialogue with the social economic and military histories of the Second World War Rebecca Searle explores the tensions between the documentarist and propagandistic roles of the WAAC in their representation of aerial warfare in the battle for production the Battle of Britain the Blitz and the bombing of Germany Her analyses demonstrate that whilst there was a strong correlation between war art and propaganda the WAAC depicted many aspects of experience that were absent from wartime propaganda such as class divisions within the services gendered hierarchies within industries civilian death and the true nature of the bombing of Germany In addition she shows that propagandistic constructions were not entirely separate from lived experience but reflected experience and shaped the way that individuals made sense of the war Accessibly written highly illustrated and packed with valuable examples of the use of war art as historical source this book will enhance our understanding of the social and cultural history of Britain during the Second World War **Operation Swallow** Mark Felton, 2019-10-15 The true

and heroic story of American POWs daring escape from a Nazi concentration camp In this little known story from World War II a group of American POW camp leaders risk everything to save hundreds of fellow servicemen from a diabolical Nazi concentration camp Their story begins in the dark forests of the Ardennes during Christmas 1944 and ends at the Buchenwald Concentration Camp in the spring of 1945 This appalling chapter of US military history and uplifting Holocaust story deserves to be widely known and understood Operation Swallow provides a historical first person perspective of how American GIs stood up against their evil SS captors who were forcing them to work as slave laborers A young GI is thrust into a leadership position and leads his fellow servicemen on a daring escape It is a story filled with courage sacrifice torture despair and salvation A compelling narrative driven nonfiction book has not been written that takes the reader deep into the dark story of Operation Swallow and Berga Concentration Camp until now Written from personal testimonies and official documents Operation Swallow is a tale replete with high adventure compelling characters human drama tragedy and

eventual salvation from the pen of a master of the modern military narrative *The Berlin Blitz By Those Who Were There* Martin W. Bowman,2023-04-30 The Allied bombing of Berlin was the longest and most sustained bombing offensive against one target in the Second World War The Berlin Blitz By Those Who Were There is a compelling gripping and thought provoking story of the Allied bombing forces and the ordinary people on the ground told in their own tongue and with meticulous attention to detail The result is a coherent single story which unfolds in a straightforward and incisive narrative This work draws attention in some detail to the major raids on the Reich capital by RAF Bomber Command from the late summer of 1940 to September 1943 It begins with the reliable but largely ineffective twin engined Blenheims Hampdens Wellingtons and Whitleys through to the introduction into front line service of the four engined heavies the Stirling Manchester and Halifax which bore the brunt of the bomber offensive until the advent of the incomparable Avro Lancaster in 1942 and the superlative Mosquito On 30 January 1943 on the tenth anniversary of Hitler s usurpation of power two formations each of three Mosquitoes appeared over Berlin in daylight and interrupted large rallies being addressed by Goering and Goebbels Sir Arthur Harris Commander in Chief RAF Bomber Command hoped to wreck Berlin from end to end and produce a state of devastation in which German surrender is inevitable But the Big City as it was known to his faithful old lags was never completely destroyed **The Path Finder Force** Martin W. Bowman,2016-03-30 Charged with the formidable task of locating and marking German targets for attack by the main force of Bomber Command the Path Finder Force 8 PFF Group and those in 5 Group was perhaps the most experienced and highly trained elite group created within the Royal Air Force during World War II Its aircrew members were almost entirely volunteers and despite the terrifying odds against any individual or complete crew ever completing the sixty sorties tour of operations with the PFF the most feared punishment was to forfeit their coveted Path Finder wings and be posted away to other units This remarkable evocation of a remarkable force is made up largely of narrative and photographs from the men who flew with or were an integral part of the PFF They alone are best qualified to recount the Path Finder story While the subject matter herein largely covers the four engined Stirlings Halifaxes and Lancasters and twin engined Mosquitoes of 8 PFF Group the Path Finding techniques used by 5 Group are not forgotten and there are two chapters detailing the work of the Oboe Mosquitoes and other markers in support of the night and day Main Force raids on German and Italian cities and individual targets in the Reich This book is a fitting tribute to the PFF and in particular to the crews who failed to return from the PFF s many operations **Bomber Command: Reflections of War, Volume 3** Martin W. Bowman,2012-09-19 This massive work provides a comprehensive insight to the experiences of Bomber Commands pilots and aircrew throughout World War Two From the early wartime years when the RAFs first attempts to avenge Germanys onslaught were bedeviled by poor navigation and inaccurate bombing to the final winning onslaught that finally tamed Hitler in his Berlin lair these volumes trace the true experiences of the men who flew the bombers Hundreds of first hand accounts are punctuated by the authors background information that put each

narrative into wartime perspective Every aspect of Bomber Commands operational duties are covered day and night bombing precision low level strikes mass raids and operations throughout all wartime theaters Contributions are from RAF personnel who flew the commands different aircraft from the early Blenheims and Stirlings to the later Lancasters and Mosquitoes Each volume is full of accounts that tell of the camaraderie amongst the crews moments of sheer terror and the stoic humor that provided the critical bond The five volumes of this work provide the most vivid and comprehensive work on the outstanding part played by RAF Bomber Command in their vital role in the destruction of the Third Reich

World War II RAF Airfields in Norfolk Martin W. Bowman, 2008-03-26 As part of the Aviation Heritage Trail series this book covers airfields in Lincolnshire Norfolk Yorkshire and Northamptonshire 12 Group was formed in 1937 within Fighter Command to become responsible for aerial defense of the industrial Midlands During World War Two this group was the second most important fighter group and as such it received its fair share of attacks from the German Luftwaffe throughout the war As well as regional defense 12 Group were also supposed to fly cover for 11 Group airfields during the Battle of Britain The airfields and other places of interest include Digby Hibaldstow Kirton on Lindsey Coltishall Matlack Swanton Morley Catterick Church Fenton Clifton Hutton Cranswick and Wittering This book looks at the history and personalities associated with each base what remains today and explores the favorite local wartime haunts Museums and places that are relevant will also be described and general directions on how to get them included

Among The Dead Cities A. C. Grayling, 2009-05-26 In Among the Dead Cities the acclaimed philosopher A C Grayling asks the provocative question how would the Allies have fared if judged by the standards of the Nuremberg Trials Arguing persuasively that the victor nations have never had to consider the morality of their policies during World War II he offers a powerful moral re examination of the Allied bombing campaigns against civilians in Germany and Japan in the light of principles enshrined in the post war conventions on human rights and the laws of war Grayling begins by narrating the Royal Air Force's and U S Army Air Force's dramatic and dangerous missions over Germany and Japan between 1942 and 1945 Through the eyes of survivors he describes the terrifying experience on the ground as bombs created inferno and devastation among often unprepared men women and children He examines the mindset and thought process of those who planned the campaigns in the heat and pressure of war and faced with a ruthless enemy Grayling chronicles the voices that though in the minority loudly opposed attacks on civilians exploring in detail whether the bombings ever achieved their goal of denting the will to wage war Based on the facts and evidence he makes a meticulous case for and one against civilian bombing and only then offers his own judgment Acknowledging that they in no way equated to the death and destruction for which Nazi and Japanese aggression was responsible he nonetheless concludes that the bombing campaigns were morally indefensible and more that accepting responsibility even six decades later is both a historical necessity and a moral imperative
